This Notice has been developed for use in responding to public inquiries about accreditation status, consistent with the Commission’s policies on public disclosure. It should be read in conjunction with the Statement of Accredited Status for Modesto Junior College. This Notice has been reviewed by Modesto Junior College, and the institution has been notified of the opportunity to submit a response to this notice. Accreditation by the Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges (the Commission or ACCJC) certifies that a college has been found to meet rigorous requirements for quality and that there are reasonable grounds for believing it will continue to meet them. The Commission’s requirements can be found on the ACCJC website at: www.accjc.org under Eligibility Requirements & Standards (or click here). The accreditation process requires an institution to open itself to examination by a group of professionals who evaluate the degree to which an institution meets the Standards. The Standards set requirements for quality that cover many aspects of the college, including: instruction, student support services, library and learning resources, physical environment, technology services, financial management, institutional governance, institutional integrity and honesty, and achievement of institutional mission. Accreditation is awarded only after an institution demonstrates that it complies with Eligibility Requirements, Accreditation Standards, and Commission policies. The Commission reviews the overall quality of each institution every six years. If an institution is found to need improvements, it may be required to undergo additional reviews and monitoring by the Commission.

Summary of Recent Commission Actions

The Commission continued Modesto Junior College on Probation when the Commission, at its January 9-11, 2013 meeting, reviewed the institution’s adherence to the Eligibility Requirements, Accreditation Standards, and Commission policies as part of a Follow-Up review. The institution remains accredited during this period and is required to make improvements to address the Commission’s findings of non-compliance.
Probation is issued when an institution deviates significantly from the Commission’s Eligibility Requirements, Accreditation Standards, or Commission policies, but not to such an extent as to warrant a Show Cause order or the termination of accreditation, or fails to respond to conditions imposed upon it by the Commission, including a warning, the institution may be placed on probation. The Commission will specify the time within which the institution must resolve deficiencies. If probation is imposed as a result of the institution’s comprehensive review, reaffirmation of accreditation is delayed during the period of probation. The accredited status of the institution continues during the probation period.

The Commission took this action because it determined that Modesto Junior College remains out of full compliance with elements of the Eligibility Requirements, Accreditation Standards, or Commission policies described below.
