Your Name  

1. Did you have:  
   a. Psychology 105  
   b. Speech, English 101  
   c. Political Science  

2. For what course did you:  
   a. Use A Research Library  
   b. Use WorldCat (to find more information)  
   c. Use Research Guide  
   d. Use Library Databases  

3. Did you use the information you found to:  
   a. Improve a Research Paper  
   b. Complete a Project  
   c. Help Others  

4. When you used the library, did you:  
   a. Find what you were looking for quickly and easily  
   b. Have a helpful librarian that understood your needs  

5. Do you feel that the research librarians were:  
   a. Very helpful and supportive  
   b. Somewhat helpful  
   c. Not very helpful  
   d. Not helpful at all  

6. Comments or Suggestions  

The research librarians couldn't be any more helpful. They helped me through the beginning to the end flawlessly. I couldn't be happier.  
I always have a pleasant experience at the MJC library.  
I called to ask about a few books, and they were very helpful.  
Nothing bad about it.  
Very easy to maneuver through with outstanding help.  
The library provides a lot of helpful information when it comes to researching whether it be through computers, magazines, or books. All that they have available is always helpful.  
It was great to be able to access articles from peer reviewed journals for my research and that the library had a variety of books on the subjects i researched.  
Comments or Suggestions
I really love the library! It's a really peaceful place to study and do any research, and everyone there helps to the best of their abilities to help you!

I really need some help to start my research but I can't find anything that helps me.

A librarian helped me find books and articles using different databases.

I think they provide good information about how you can start your research but, they can improve on the advanced, deep and specific research. Overall they are good and helpful.

I would like all English classes to provide information on how to access the library data.

I've got help from a librarian in the past and have found much more information for my papers.

A librarian helped me learn various ways to find a topic by using databases. I am very thankful for her help. I couldn't done it without her.

I think that more time with a researcher would do good.

I think they provide good information about how you can start your research but, they can improve on the advanced, deep and specific research. Overall they are good and helpful.

Tell the people that game on the computers to shut up or leave because they are very loud and it distracting anf you have to find someone that works there and ask them to say something instead of them saying something asap.

A good resource.

Very helpful. I've got help from a librarian in the past and have found much more information for my papers.

I found a lot of books and articles using the database.
I think the library and its resources are great! The research librarian was an essential part of me getting started in my research paper.

The library is wonderful, keep it up!

More help from librarians with finding books in the library

The library has a lot of tools to help with assignments. I learn something new about what it offers every semester.

Overall the library is very helpful and informative on helping students achieve their goals.

It was very helpful and I am glad that my teacher asked a librarian to come to our class and inform us about conducting research.

The library hours are too limited. You have a very large selection of students, especially in business, that only go to school at night, but you have no library services or computer labs available to those students who work during the day.

The taller lady with light blond hair helped me out tremendously and was very pleasant to speak with.

When I asked for help the person who helped me even gave me some useful advice and websites that not only helped me with what I was researching but also help me on my essay too!

The research help in the library has been very useful for me to complete necessary assignments in a timely manner.

The MJC library is an amazing resource! I tell students that they need to take advantage of the Research librarians, book rentals, computers, and databases as often as possible!

I like the new website arrangement but it makes finding gale database tricky.

The research librarian was an essential part of me getting started in my research paper.

I like the new website arrangement but it makes finding gale database tricky.

I would love to work in the library for help but with my busy schedule I was not able to wear that service.

Overall the library is very helpful and informative on helping students achieve their goals.

When I asked for help the person who helped me even gave me some useful advice and websites that not only helped me with what I was researching but also help me on my essay too!

I was thrilled to hear that the person who helped me ever gave me some useful advice and websites that not only helped me with what I was researching but also help me on my essay tool.

I never went to the library for help as an researcher, but guess speakers would come to my classes and talk about how to research and how they helped us on it.

5

The library is very helpful to students. I’m very greatful for them.

I found it very helpful because I was able to find the information quickly than if I was to do it myself.

Great place to study!

The resources helped me to narrow my searches for not only Eng 103, but Anthro 101 as well! Thank you so much!

I didn’t get any help but I think it’s awesome that they offer that free extra help.

I found some of the research items available slightly limited.

The library is way too loud. I always like to reserve a room because it is too distracting if not in a room. Often times if there aren’t any rooms available, I’ll just go home and try to study.

Nothing, keep up the good work.

Everyone should use the sources offered.

The databases that we are giving access to are very informational and useful for any class that is looking for information from academic sources.

The west campus library has been a great way to locate information for my assignment.

Librarians were very helpful. Databases are helpful, but students aren’t clear on how to use them.

The library shouldn’t be so noisy as it is. It distracts students and could have a negative impact on students success. If we pay fees every semester to be here I believe we deserve to be able to go into the school library and have quiet time for homework. (I believe it’s not treated as a library any more)

I don’t (get any help but I think it’s awesome that they offer that free extra help.

The library is very helpful to students. I’m very grateful for them.

I found very helpful because I was able to find the information quickly than if I was to do it myself.
The staff is awesome and a very friendly environment. I'm not from Modesto so getting the vibe of great people makes me feel welcomed. Great service!

Although I didn't use the library for the research I did used the school's website for databases, so that did help

The librarians are awesome. The research workshop is also a great help.

I actually just used the computers there, since I don't have internet access at home.

Not only was I able to finish and turn in my assignment on time, but I learned a lot from the textbook I rented. I found my resources easily and will definitely continue using this method, researching and renting out books, to help me with my education.

More literature available online

Loved your help. Especially east campus workers were always nice and willing to help with papers and computer help. West campus is the best for turning in math, they were very nice.

Got to talk in the library

The librarians have not been too helpful in the past, and that was why I didn't seek their help.

Not only was I able to finish and turn in my assignment on time, but I learned a lot from the textbook I rented. I found my resources easily and will definitely continue using this method, researching and renting out books, to help me with my education.

The librarians have not been too helpful in the past, and that was why I didn't seek their help.

Loved your help. Especially east campus workers were always nice and willing to help with papers and computer help. West campus is the best for turning in math, they were very nice.

I believe if we have access to the library by text message, it will be perfect.

Become best friends with the library!

I wasn't really sure how to use the online research help thing so I just didn't use it, but I do believe if I would've known how to use it, it would've been helpful.

No Comments Necessary

Having the use of the campus library is great. It offers many resources and makes life much easier.

More people to help students research their specific topics when they do not know how to do it themselves.

I believe if we have access to the library by text message, it will be perfect.

I would recommend the library to everyone

I thought the library was awful, but after I started doing research here, I've really come to like it...

I actually just used the computers there, since I don't have internet access at home.

I appreciate the services that are being provided to students at Modesto Junior College. You guys are doing a fantastic job helping others. Every time I need help with something someone is always there to help. Thank you!

I got an A on my research assignment all because of the help I received in the MJC Library. The websites I used were better than Google. Thank you!

It was very helpful thank you.

I don't think there's anything to improve there is enough computers and student workers to help.

The MJC Library was very friendly, clear and honest with several questions I asked while in the Library. They had helped me a lot. I recommended this very highly, because it taught me to learn how to do research by searching different books that are in the library instead of Google.

Everything is great!

I received a lot of good information and help. My only issue was one of the books I needed was checked out, I'd only suggest having more than just 1 copy of a book.

I love the online library help, for when I am unable to go to the library at school.

I love all of the benefits of the library. It is so useful for not only research but for computers and tutoring. Thanks for all you do.

I love the online library help for when I am unable to go to the library at school.

PROVIDING BETTER SERVICE WITH HELPING STUDENTS FIND WHAT THEY ARE LOOKING FOR.

People who work in the library are so nice and helpful when you need help with an assignment.

I love the online library help for when I am unable to go to the library at school.

The library is always student friendly which allows students to do their homework without much hesitation. The tools given are plenty but I feel it can just be a matter of better actively portraying and letting the students know about the services or having videos sent to them through their emails or in student catalogs. I'm rest assured that if I have any questions or doubts, there will always be a library assistant/research help to come to my aid. It's a great feeling to know you have resources to back you up!

Train others assisting in library to be of more assistance to students. Not many working have knowledge in many areas.

The staff is great. Train others assisting in library to be of more assistance to students. Not many working have knowledge in many areas.

I really love the staff everyone has such a positive attitude which make it really comfortable to ask questions and get help.

I'm rest assured that if I have any questions or doubts, there will always be a library assistant/research help to come to my aid. It's a great feeling to know you have resources to back you up!

Train others assisting in library to be of more assistance to students. Not many working have knowledge in many areas.

Ask for help! The librarians really know where things are and will point you in the right direction.

as a first time student things can be scary and confusing but there things and people to help, that is exactly how i experienced my first few times

Everything is great.

Probably would like more seats. Sometimes library gets too full!

Thank you for helping me with my research!

The staff were very helpful this time. The library is kept too hot and stuffy.

Google is better for research than the databases

Rleaized not everyone that works in the library learning center is happy, it's really obvious if someone is having a bad day, and it makes me feel as well especially if i am being nice with them. Or sometimes i ask for help with a computer situation and they give me a "are you dumb" look...

So grateful for what you guys do! Truly appreciate it.

I have used the library twice this year for research. The staff was very helpful.

Library services have been of help to me and they have helped me in a lot of my previous assignments with research.

Library services have been of great help to me and they have helped me in a lot of my previous assignments with research. 

The librarian staff is very helpful. Go Librarians!

The librarians helped me a few semesters ago so i was able to research efficiently without their direct assistance this time. The library is kept too hot and stuffy.

Library services have been of help to me and i bet more than one student has come across the same questions as me. 

Google is better for research than the databases

The people that work at the library are always very helpful.

Though i have found plenty enough help from the library the only suggestion i can offer is perhaps it would be more beneficial for the student body to have librarians available for more hours in the day.

I wish the

I had an issue once with a research librarian i was hoping she would check my essay last minute to see if i should change something but she said she couldn't unless i had an appointment but would offer she did something she finished doing that something and never came to help i wish i

The librarian staff is very helpful. Go Librarians!

I had an appointment but would after she did something she finished doing that something and never came to help i wish i
I did not go into the library last semester, but before it was really great and helpful for finding the answers I needed. Thank you! The library is cool, I kind of like the old lab better on East. People talk is much in there now and it is hard to study sometimes.

I often do homework in MJC Library but I never borrow any book from MJC Library. If I want to borrow a book, I usually go to the book store. My classmates want to borrow it too. Nevertheless, there are only one or two this book in the library, I had the same problem trying to use the library options. It is a hard tree figuring out how to search and basically gave up.

I love the large selection of books in the library. It helps me a lot with my home work or conduct research. But it can be somewhat bemusing to use at times. I would suggest it be made a little more user-friendly.

Everyone was very helpful. The lady who helped me was very kind and happy to help!

Wireless WiFi is really bad forcing me to use school computers.

MJC library services are great!!!!!!! They are always there to help in any way.

I felt like it was hard to navigate to get the results I was looking for. In English 103 I had the same problem trying to use the article options. I had a hard time figuring out how to search and basically gave up.

I use the library to study. I enjoy going to the library when I have a big exam.

The library and learning center is very helpful!!

The library databases are extremely helpful for finding useful, credible information.

I think it could be worthwhile to make it so the databases are a little easier to navigate. It is a little confusing.

I really enjoy being able to go somewhere such as the library to do any of my assignments.

I often do homework in MJC Library but I never borrow any book from MJC Library. If I want to borrow a book, I usually go to the book store. My classmates want to borrow it too. Nevertheless, there are only one or two this book in the library, I had the same problem trying to use the library options. It is a hard tree figuring out how to search and basically gave up.
The library service is very helpful and I recommend for any research need to ask help from a librarian.

MJC has great resources online as well as in the library. Students can really receive help if they ask and look for it.

Overall, I appreciate being able to know a good source from a bad source. I also thank the library staff for helping me... years I have been there. I can easily say that without the MJC services provided, I might have not made it this far.

The library staff also taught me how to use the photocopy machine, to help me insert a USB so that I could upload them. I originally had printed out all of my papers, but now that I could upload them, my interest in school work skyrocketed.

I did not use library research help for 2015 fall semester. But I have previously used for past semesters. I can say that the person who helped me was very helpful and had her knowledge very outstanding.

The APA Citation training was extremely helpful and I highly recommend it! I felt empowered to complete a quality research assignment for my class. Thank you.

I very much appreciate the librarians and their willingness to help me.

West campus library is always helpful clean and has computers available.

The tutors in the Library were a great help for my research.

I did not use library research help for 2015 fall semester. But I have previously used for past semesters. I can say that the person who helped me was very helpful and had her knowledge very outstanding.

The cited websites help a lot!

Keep it up, I definitely learned something using the database. I learned a lot from the librarian who went to our classroom to demonstrate how to use the databases.
I went to the library today and it was really helpful. I had to do some research for my English class, and the librarians were very helpful in guiding me through the process. They lent me some books and also showed me how to use the databases effectively. I was impressed by their knowledge and expertise. I also appreciated the quiet environment which was conducive to studying.

I didn't know I could get help with research in the library. Although I did not use the library for research, I did use it to meet with other students in a study group in one of the rooms that we reserved, which was an excellent idea.

Every time I go to the library, everyone is always very helpful. Thank you for all that you do.

I love the library at MJC! It was helpful anytime I had to do a research paper for my English class and history.

It may be helpful to have the ability to place search filters such as most current/recent articles.

Until I asked for help, I often struggled and didn't understand why. The librarians were very helpful and nice when I had questions.

I don't go because there is no food or drinks allowed.

Library really helps because they have a variety of sources including tutoring which I used in the past.

The librarians are very helpful for source citations and helping you construct your paper when you're having writer's block.

Thank you librarians are awesome.
I would like to see more books available for check out for certain classes, usually there are only one or two books available per course.

There were a lot of books not available that I needed for my research, also the search engine is kind of confusing.

The librarians were very helpful and very nice to show me what I needed to research my project successfully, and made sure I knew what i was doing before they left me to finish up my researching.

Working in the library was a great help although it would have helped if the students were more considerate about keeping a quiet environment to better concentrate. When I asked a student if they could please keep it down she tried to start an altercation with me. With that being said the librarians were very helpful and very nice to show me what I needed to research my project successfully, and made sure I knew what i was doing before they left me to finish up my researching.

Let their services be more known to students.

The research resources available to MJC students through the GALE and other databases is quite extensive and extremely useful. It's most useful when you're doing research on a particular topic and want to get specific and detailed information though. In 2016, for example I had a research paper due and needed to find books on a very specific topic. The research librarians are great! They point me in the right direction every time I have an assignment that requires different sources of information.

I like using the library, however, I do not like the amount of noise that occurs outside of the study rooms. I can not concentrate with all the noise.

The library is a really great place full of resources! Everyone is willing to help you or direct you to the right person who can help you.

The library staff is very friendly and welcoming, and all of the services at the library are very helpful, informative, and printing is very cheap. Thank you for everything you do!

I do not use the library for research, but I use the library for other reasons and it is a great and helpful environment.

I used the library for research but it was really hard to actually do the research since it would shut down at midnight. I typically have very busy days where there isn't typically any time to do homework until the end of the night. It was really hard to try to find time to do the research during the day.

Everything is great! Let their services be more known to students.

I like the library, and the access to the help and the tutoring.

Whenever you need help the research ladies are always very knowledgeable on where to send you to get you on the right track.

A few of the books I would have liked to checked out were already taken by another student. I would suggest possibly getting two copies of books that appear popular.

Most of my instructors were very thorough about explaining how we will need to find sources for our reports, so I have yet to have any trouble finding citing sources. I suppose the only real suggestion I have is that maybe we should start putting up posters to nudge those who might be less interested.

WISHED THERE WERE ACTUAL PEER REVIEWED JOURNALS ON PSYCH CLASSES

It was very helpful when I ask for help the people that help us out care about people and that is what i like most about the people that work at the MJC library thank you.

Great service for students
Love how you have workers in there to help. They are friendly and very patient.

I mainly just use it to go online for class to research or to submit things, or just study there.

I think the Library has a lot of great options for help on research assignments. The librarians are really helpful and I am thankful.

I think the library at MJC is very helpful and resourceful. I found everything I needed for my assignments.

Have someone show exactly how to use the databases online because they're helpful if you know what you're doing.

I remember having a tough time getting English 103 tutors. So, my suggestion is to employ more of them.

The Librarian gave a very clear understanding of how to use online research databases.

The staff are quite helpful.

The library is a nice quiet place to study and the helpers in there are wonderful.

I primarily used GALE. I will use again.

The Library is very convenient when you have classes scheduled for part of, or for whole day. Just recently, I found out that they lend calculators, which is awesome!

The staff in the library are very helpful and supportive.

I wish they had help for my Economics class.

Gave great points on where to start and format flow.
I highly value and appreciate the help of the librarians at MJC. They are kind, patient and very knowledgeable. They help you find journal articles, that is extremely helpful when you are not sure in which direction you want to go in. They help you get started and then your...
I really like the individual study stations and the library staff at both West and East campus are awesome.
