Candidates will present two teaching demonstrations, following these guidelines:

**Teaching Demonstration #1** (will be mailed to candidate prior to interview)

Candidate is to present a teaching presentation (15 minutes) on the following topic:

“Demonstrate a project in which you employ three different software programs. Choose from the list of programs below. Explain the strengths of each program in accomplishing each phase of the project. Focus on the concept of integrating multiple applications toward a desired result.”

List of available programs:

This lecture should be appropriate for community college students taking their first course in Computer Graphics.

**Teaching Demonstration #2**

Based on the general topic below, and the software listed above the candidate will be given a specific topic after the initial demonstration and will be allowed 20 minutes to prepare a 15-20 minute presentation to the screening committee at a level appropriate to a general college audience.

Presentation on Image Manipulation
(Can use programs from the list provided in Teaching Demonstration #1)

The candidate will have available: white board, document camera, 27” Wacom Cintiq, Wacom Intuos 4, PC with Windows 10, and internet access for use during their presentation.
