

**MODESTO JUNIOR COLLEGE  
ACADEMIC SENATE  
RESOLUTION FL97-I: PREREQUISITE RESEARCH**

**PROPOSED BY:** Academic Senate for California Community Colleges

**WHEREAS,** some current research that seems to show that English and math prerequisites are predictors of student success in general education courses is, in fact, flawed research because of the flawed research design, and

**WHEREAS,** the Modesto Junior College Academic Senate should only support indicators of student success that are valid and reliable;

**THEREFORE,** be it resolved that Modesto Junior College Academic Senate support funding for longitudinal research designs relating to the use of math and writing skills to predict student success in other general education courses

**First Reading:** November 13, 1997

**Final Action:** December 4, 1997

**Disposition:** Carried
