## Memorandum of Understanding

### Between the Academic Senate of MJC and Modesto Junior College

The Academic Senate President and President of Modesto Junior College agree that establishing a college program discontinuance policy and procedure is a high priority. To that end, they agree to work collegially to draft a program discontinuance policy that relies on the governance structure set forth in *Engaging All Voices* and is consistent with the principles of collegial consultation defined in Board Policy 7-8049.
