

OAW Agenda
13 September 2019
Founders Hall 234

Information Exchange:

- Online course
- Traveling office hours
- SLO-related interactive presentations for flex
- Report given to Senate
- Summer assessments are possible now

The Importance of Measurable Verbs and reviewing our PLOs and SLOs according to Bloom's Taxonomy:

Process suggestion:

- We can start by reviewing PLO statements
- Vote on edits
- Send recommendations to departments for approvals
- Save approvals in a document for input into eLumen in the spring

Courses and SLOs that have slipped through the cracks:

- Some SLOs have never been assessed, so departments will need to be contacted
- Some courses will also need to be researched for having missed assessments in the last cycle.

New schedules for the 2019-2021 cycle: Many have yet to submit. Nita will send out an email soon; if you can urge your friends and colleagues, that would be very helpful.

Technical questions? Other?
