- Spring 2019 has been uploaded and distributions will happen soon per our assessment schedules; for a regular course spanning over sixteen weeks, it's best to wait until the final drop date (and an announcement) before entering assessment data.
- Regarding staying true to departmental schedules, here are some numbers, but this is an approximation as some clean-up is currently happening:

Counting courses schedule for fall 2018 and courses assessed:

199/204 = 97.5%

Counting sections scheduled and sections assessed: 461/573 = 80.4%
(number will go higher as clean up proceeds)

- Regarding Canvas-eLumen integration, success came twice, but there are a few glitches to fix at the moment.
