OUTCOMES ASSESSMENT NEWSLETTER

SEPTEMBER, 2015

In order to make outcomes assessment easier and meaningful, we're moving to a new software provided by eLumen

elumen.info

Summary of Discussions as of September, 2015

- September 18 & 26 (10:00 am to 4:00 pm): There were Assessment-Reporting workshops for completing past work before the switch to eLumen
- OAW is gearing up for self and peer training on eLumen; training

details will be chalked out and announced this semester

- OAW is cognizant that the training and transition to the new database needs to be reasonably smooth and will work on a process to accomplish the task.

Advice on Fall 2015

Assessments:

Continue to assess as scheduled, but store all data to input into a new system.
