<u>In "School" GE Exploration</u>	
<p><b>Instructions:</b> Select up to 20 classes from your discipline area in the GE patterns that will provide students a breadth of knowledge to enhance their interest in a degree from this school. Classes could also be the first introductory course for the degree not necessarily on the GE Pattern. You can tier or group multiple disciplines together to build a "mini" school within the larger school.</p>

<u>Out of "School" GE Area _____</u>	
<p><b>Instructions:</b> Select courses from the GE area that are not in your discipline area that would benefit the student. For example, <i>an art student might select Bio 116 for their sciences because they have to draw the body in a course to complement and enhance their degree experience.</i></p>
