Significant Lapse of Time: (55043) At least 36 months (3 years) have passed since grade was first obtained. Recency requirement for institutions of higher education or transfer program must be provided as documentation of such evidence. Other than recency requirement, you must submit documentation that provides compelling evidence of justification needed to repeat the course. Examples of documents which may be submitted are: program or transfer information from school, new updated technology or industrial equipment. If a student has enrolled the maximum number of times allowed in an activity class, they may enroll one additional time, after a lapse of time of five years or more. The grade and grade points will replace the fourth enrollment, even if the grade is lower. Students are only allowed to petition once under significant lapse of time.

Legally Mandated Courses: A student is permitted to re-enroll in a course that is required by statute or regulation as a condition of employment AND the student is employed or actively seeking to be employed for a paid or volunteer employment. Students are required to provide evidence showing course is legally mandated. Acceptable evidence may include: job announcement, job description, course description, or certifications.

Significant Change in Industry or Licensure Standards: A student is permitted to re-enroll in a course that there has been a significant change in the industry or licensure standards since the student previously took the course AND the student must take the course again for employment or licensure. Students are required to submit adequate documentation that demonstrates the significant change and requirement for employment.

Special Classes for Students with Disabilities: Students with disabilities can re-enroll in special classes in any of the three circumstances 1) the student's success in other classes is dependent upon additional repetition of the special class (2) the student's need to enroll again in the specific class to be prepared for enrollment in other regular or special classes (3) the student's educational contract specifies a goal which additional enrollments in the class will help further that goal.

Extenuating Circumstances: (55045) Maximum allowable enrollments are only eligible for course repeat if verified cases of accident, illness, or other life changing event beyond your control that prevented you from doing well in the course(s). Proof of extenuating circumstance must be attached to verify information. Examples of documents which may be submitted, but not limited to are: medical records on physicians letterhead, death certificates, birth certificates, proof of relationship documentation, Jury duty, court summons, or Military orders. Students are only allowed to petition twice under Extenuating Circumstances.
