

Modesto Junior College Health Service's Notice of Privacy Practices

In accordance with the Family Educational Rights and Privacy Act (FERPA) and the Health Insurance Portability and Accountability Act (HIPAA)

MJC Health Services is covered by both FERPA and HIPAA regulations. Under FERPA the records maintained by MJC Health Services (MJCHS) are either "treatment records" or "education records." The majority of records maintained at MJC Health Services are considered to be treatment records, and include records that are made or maintained by a health care professional, are used only for your medical or mental health care, and are available only to treatment providers. If MJCHS discloses a student's treatment records for purposes other than treatment, the records are considered "education records" and are subject to all other FERPA requirements.

Federal regulations make clear that education records and treatment records are excluded from coverage under the HIPAA Privacy and Security Rules. Accordingly, FERPA regulations prescribe the federal rules that MJCHS staff must follow in protecting the privacy of a student's medical and therapy records.

MJC must comply with HIPAA with respect to its transactions and maintenance of the electronic medical record system (EMR), overseen by the Yosemite Community College District. All contact and medical information utilized by the nurse, physician, and/or mental health practitioner is created and maintained in the EMR.

HIPAA regulations apply to non-student health records.
