

Managing your Starfish Calendar

Last updated May 15, 2019

Purpose

This document provides guidance on setting up your office hours in Starfish, making appointments with students, and documenting outcomes. It is intended for staff members who will manage a calendar in Starfish to make, edit, and document student meetings.

Important Definitions

- **Appointment:** A documented set of details shared between a student and a calendar owner (e.g. advisor, instructor) about a planned meeting. Students may only schedule appointments in the future at times the calendar owner designates as available. Calendar owners and calendar managers can schedule future appointments and create appointments to document past meetings.
- **Appointment Type:** Grouping of appointment reasons and activities (i.e., SpeedNotes) that a common set of roles can add and/or view. Your Starfish administrator will create appointment types and associated reasons and SpeedNotes that will be available to you based on your role. You may be able to use appointment types to allow different groups of students to see different office hours on your calendar.
- **Calendar attachment (iCal):** Attachment to an emailed calendar invitation that allows a user to accept or decline from his/her email client (e.g., Outlook, Google). iCal is the industry standard to communicate meeting information between online calendaring software.
- **Calendar Manager:** A Starfish user who can see and edit another user's Starfish calendar. A calendar owner can designate his/her own calendar managers by navigating to Profile > Appointment Preferences. Or, a Starfish Admin can batch upload these relationships.
- **Calendar Owner:** The Starfish user associated with a Starfish calendar. The calendar owner can add office hours and make appointments with students on his or her calendar. Only users with staff roles are calendar owners. Students do not own calendars in Starfish.
- **Group Session:** Groups sessions are like Office Hours, but more than one student can sign up for this block of time. The Calendar Owner decides how many students can sign up for each Group Session.
- **Meeting:** A documented occurrence of a meeting between a student and a calendar owner (i.e., advisor, instructor) that includes details about the

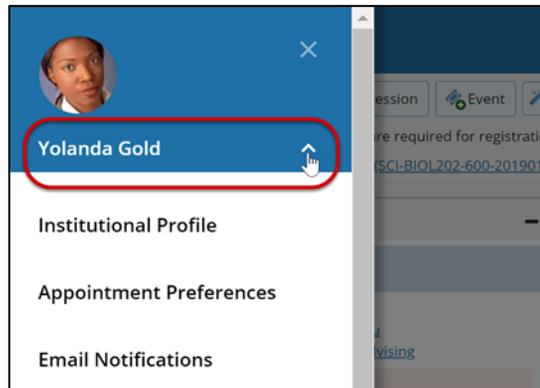

outcomes of the meeting. Calendar owners may designate available times for walk-in meetings or restrict availability to scheduled appointments only. Students may only schedule appointments in the future at times the calendar owner designates as available. Calendar owners and calendar managers can schedule future appointments and create appointments to document past meetings.

- **Office Hours:** Calendar owners can add blocks of time labeled Office Hours to their calendars to indicate when they are available to meet with students. Calendar owners or calendar managers can add appointments outside the blocks, but students can only self-schedule within the block. Office Hours allow students to sign up for individual one-on-one slots within the time parameters entered by the calendar owner.
- **Outcomes:** Results of a meeting documented on the Outcomes tab of an Appointment in Starfish.
- **SpeedNotes:** Activity codes that provide an easy way for staff to document common outcomes of an appointment. Specific SpeedNotes are set up by the institution per Appointment Type.

Personalize your profile

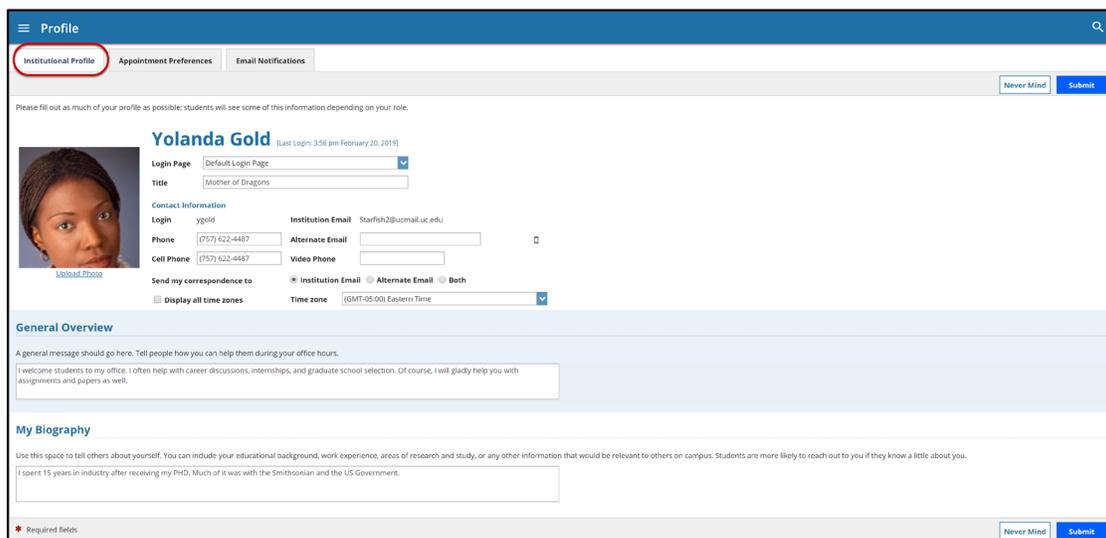

Before you begin taking appointments with students, you will want to personalize your profile and set up your availability.

Select your name in the top right corner of your Starfish *Home* page to open your **Profile**. Your profile has the following tabs: *Institutional Profile*, *Appointment Preferences*, and *Email Notifications*.

Institutional Profile

This tab allows you to personalize your profile.

1. Use the **Upload photo** link to add a profile photo. (Your institution may already have added one).
2. Update any contact information that is not pre-populated.

- If configured by your institution, you can provide an alternate email address in addition to your institutional email for Starfish email notifications.

Contact Information

Login ygold Institution Email Starfish2@ucmail.uc.edu

Phone (757) 622-4487 Alternate Email

Cell Phone (757) 622-4487 Video Phone

Send my correspondence to Institution Email Alternate Email Both

- Write a description of yourself in the **General Overview** and **My Biography** fields.

This is the information that students see when making an appointment with you. A photo and personal information help students put a face to a name and feel more comfortable reaching out for help.

- Select **Submit** at the top or bottom of the page to save your updates.

Appointment Preferences

This tab defines defaults related to how students can interact with your office hours. Set your preferences before you begin adding *Office Hours*.

Profile

Institutional Profile **Appointment Preferences** Email Notifications

Basics

Please choose your default settings for your office hours blocks. You can change these whenever you add a block of office hours.

Minimum Appointment length 15 minutes

Scheduling deadline:

- None
- 5:00 pm the day before the office hours
- 9:00 am the day of the office hours
- 1 hour(s) before the office hours

Allow drop-ins after deadline has passed

Basics

The *Basics* section allows you to manage your office hour blocks. You can change these whenever you add a block of office hours.

1. Select a value for **Minimum Appointment Length**. Starfish recommends 15 minutes. This allows the student to schedule with you on the 15, 30, 45, and hour mark. The reason the student selects will reflect the length of the meeting. This will be used as the default when you set up new Office Hours. (Your institution settings for specific appointment reasons may override your selection when a student makes an appointment).
2. Select a radio button and specify the specific value to define your **Scheduling Deadline**. The deadline is imposed based on the start time of any office hour blocks vs. an individual time slot. If set to 'None,' a student may schedule an appointment with you right up to the time slot.
3. Check the box to **“Allow drop-ins after deadline has passed”** if you wish to include a note in your calendar letting students know that they cannot schedule but can walk into your office after the scheduling deadline has passed.

My Locations

The *My Locations* section allows you to enter one or more locations for your meetings with students. Meetings can be in an office, online, over the phone, or anywhere else you'd like. When you build your calendar availability and add Office Hours, you will have the opportunity to select which of these locations apply to each set of hours.

My Locations

Enter locations for your meetings with students. Meetings can be in an office, online, over the phone, or anywhere else you like.

+ Add Location

Type	Name ↕	Instructions	
Office	Chrysler Hall, Room 301	Knock once and enter	✎ ⊕
Online	Wimba	access via your Blackboard course	✎ ⊕

Add Locations

1. Select **Add Location**. A new window displays.
2. Select the **Type of location**, enter a descriptive **Name** and enter any relevant **Instructions**. *Note: Students will see this information when scheduling an appointment for office hours that have been designated for this location.*
3. When you are finished, select **Save**. Repeat this process to add any additional meeting locations.

Edit Locations

You can edit your locations by selecting the edit icon within the *My Locations* section. Alternately, you can remove a location by selecting the delete icon.

My Locations		
Enter locations for your meetings with students. Meetings can be in an office, online, over the phone, or anywhere else you like.		
+ Add Location		
Type	Name ▲	Instructions
Office	Chrysler Hall, Room 301	Knock once and enter
Online	Wimba	access via your Blackboard course

Calendar Managers

The *Calendar Managers* section allows you to designate other users who can see and edit your Starfish calendar.

Calendar Managers		
Select people to manage your calendar. Calendar managers can add and edit your office hours and schedule and edit appointments in your calendar.		
+ Add Calendar Manager

Knopf, Lester	Lester.Knopf@starfishcollege.edu	Lester.Knopf 
Manager, Student	Student.Manager@starfishcollege.edu	Student.Manager 

If you are unable to remove a calendar manager from this area, contact your Starfish Administrator.

Save Appointment Preferences

When you have made all necessary edits to your profile settings, select **Submit** at the bottom or top of the **Appointment Preferences** tab to save your changes.

Email Notifications

You can set preferences for email sent to you from Starfish for both Appointments and Tracking Items (e.g. flags, to-dos and referrals).

The screenshot shows the 'Starfish' interface with three tabs: 'Institutional Profile', 'Appointment Preferences', and 'Email Notifications' (which is circled in red). Below the tabs is a note about SPAM filtering. The main content area is titled 'Appointments Notifications' and includes several settings:

- Do not send appointment notifications on weekends
- Planning Reminders:**
 - send me a separate email reminder for each appointment
 - send one email reminder with all appointments
 - don't send me an email reminder
- Send Planning Reminders: 8:00 am the day of the appointments
- Appointment Alerts:** Send me an email 15 minutes before the start of an appointment
- Send me an email with a calendar attachment for every:
 - change to my appointments
 - change to my Office Hours/Group Sessions
- Read busy times from my external Exchange calendar

Important: In order for this setting to take effect, you must share your calendar with Starfish3@ucmail.uc.edu. [Click here](#) for further instructions.
- Read busy times from my external Google calendar

Important: In order for this setting to take effect, you must share your private calendar link with Starfish. [Click here](#) for further instructions.

`https://www.google.com/calendar/ical/ygoldstarfish%40gmail.com/private-f1d367e410d0d0ea610e2c6dc8749c4e/basic.ics`

Appointment Notifications

Specify when you wish to receive Planning Reminders, Appointment Alerts, and calendar attachments. Institution defaults will be used if you don't update these options. Each of these is described below:

- **Do not sent appointment notifications on weekends:** When selected, notifications for appointments on Saturday, Sunday or Monday will be sent on the prior Friday at the time selected for appointment reminder emails.
- **Planning Reminders:** Receive optional email reminder(s) sent separately for each of the day's appointments, in one email, or not at all. Specify the date and time for reminders.
- **Appointment Alerts:** Receive an optional email reminder sent a certain number of minutes before the start of an appointment.
- **Calendar Attachments:** Receive emails with calendar attachments without synching your external calendar.

It is highly recommended to keep both calendar attachment options checked (change to my appointments and change to my Office Hours/Group Sessions). This ensures

that your external calendar (e.g., Outlook, Google, Entourage) receives the latest information from your Starfish calendar.

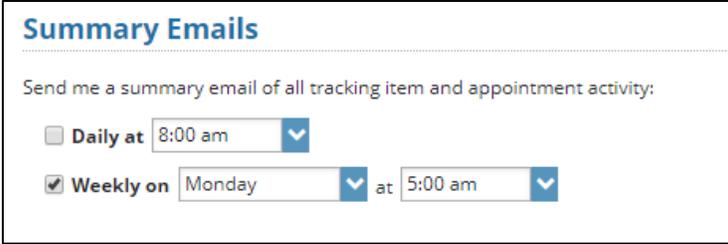

- **Read busy times from my external Google or Exchange calendar:** If your institution has enabled integration with Google or Exchange, busy times from your external Google or Exchange calendar can be displayed in Starfish. See the *External Calendar Integration* section for more details.

Summary Emails

You have the option to receive summary emails of all tracking item and appointment activity by configuring the following options.

Daily: Select this option if you want to receive one email per day at the frequency specified with all relevant activity.

Weekly: Select this option if you want to receive one email per week on the specified day and time. To opt out of email communication, ensure neither option is selected.

The screenshot shows a form titled "Summary Emails" with a sub-header "Send me a summary email of all tracking item and appointment activity:". There are two options: "Daily at 8:00 am" which is unchecked, and "Weekly on Monday at 5:00 am" which is checked. Each option has a dropdown arrow next to the time or day field.

Tracking Item Notifications

Your Starfish administrator has determined which items you will be emailed. Items that may trigger an email to you are listed in the Flag Rules table below your notification options.

Tracking Item Notifications

Send me an immediate email whenever: an item is raised an item is cleared an item is assigned to me

You may be notified of tracking items raised for the following rules created by the administrator. Note that for rules with emergency notifications, your personal notification preferences will be overridden and you will always be notified immediately when a tracking item is raised for that rule.

Flag Rules		
Name	Category	Description
Schedule time with interpreters or note-takers	ACADEMIC: REFERRAL	Students requiring ASL interpreters or note-takers for class must schedule time with them at least one month in advance.
Financial Concern	FINANCIAL: FLAG	Flag a student for financial concerns if they may have financial difficulties that would prevent them from remaining registered in the current term or from re-enrolling in a future term.
Tutoring	ACADEMIC: REFERRAL	This referral approves the student to receive tutoring services from the Academic Learning Center.
<input checked="" type="checkbox"/> Sign Financial Repayment Agreement	ACADEMIC: TO_DO	All students who have received any financial aid during their academic career must sign the DOE Financial Repayment Agreement upon graduation from the institution.
Dramatic Change in Appearance	SOCIAL: FLAG	Raise this flag when the student shows a change in appearance
No enrollments in Registration	REGISTRATION: FLAG	This flags unenrolled students 1 day before the end of registraion
Study Strategies Seminar	ACADEMIC: REFERRAL	All disabled students are required to take a study strategies seminar at the ODS.
<input checked="" type="checkbox"/> Study Skills Seminar	ACADEMIC: TO_DO	Students on academic probation and incoming TRIO students must complete a study skills seminar at the Academic Learning Center.
Work Life Interfering	SOCIAL: FLAG	Raise this flag if a student's job is causing attendance problems or low grades.
<input checked="" type="checkbox"/> Verify Required Courses	ACADEMIC: TO_DO	Task to verify that required GER and major course have been completed by the student for graduation.

An emergency rule, which means that you will be notified immediately when a tracking item is raised regardless of your notification preferences.

* Required fields

You can customize how you receive those emails including whether you will receive your notifications as a summary email of all recent activity or as individual email for each item. As noted, items marked with the **Emergency Notification** icon will be sent when raised regardless of your settings.

You can receive immediate email notifications for specific events. Events include when an item is raised (or created) when an item is cleared (or closed) and when an item is assigned to you.

Tracking Item Notifications

Send me an immediate email whenever: an item is raised an item is cleared an item is assigned to me

Combine a daily summary (typically first thing in the morning to ensure it is inclusive of any system-raised flags that were processed overnight) with an immediate email when an item is assigned to you.

Save Email Notification Preferences

When you have made all necessary edits, select **Submit**.

Establish your availability

Students can only schedule an appointment at times you indicate are available by adding office hours or group sessions. There are three ways you can add office hours: use the **Office Hours Setup Wizard** for quick initial setup, use the **Add Office Hours** button to add additional blocks at any time, or use the **Scheduling Wizard** to setup multiple office hour blocks that don't follow a consistent recurrence.

Office Hours Setup Wizard

The first time you log in to Starfish the **Office Hours Setup Wizard** will display if you have a role that can be a calendar owner. Use the **Office Hours Setup Wizard** to quickly create appointment availability.

1. Complete the fields presented to specify:
 - a. **What day(s) do you have office hours?** - check the boxes for each day
 - b. **What time are your office hours?** - enter a start and end time
 - c. **Where are they?** - select the **Type** of setting and enter the **Details** in the field provided (e.g. the building and room number of your office).
 - d. If relevant, provide **Instructions** for students who make appointments with you.
2. Select **Set up Office Hours** to save your settings.

The screenshot shows the 'Office Hours Setup Wizard' interface. It includes a title, a link for non-weekly hours, an introductory message, and three numbered steps: 1. Selecting days of the week, 2. Entering start and end times, and 3. Selecting office location and type. A checkbox for 'Show me this Office Hours Setup Page again next time I login if I don't have any Office Hours' is checked. At the bottom are 'Close' and 'Set up Office Hours' buttons.

A confirmation message will display.

The confirmation message reads: 'Thank you for turning on Office Hours! You can complete your profile and preferences by going to your Profile. Go to Profile>> You can add more blocks or edit your office hours by going to your calendar. Go to Calendar>>'. A mouse cursor is pointing at the 'Go to Calendar>>' link.

If you choose not to complete the wizard now, but want to use it later, check the box labeled **Show me this Office Hours Setup Page again** and then select the **Close** button.

Office Hours

The **Add Office Hours** option is designed for setting up a recurring block of time on a regular pattern such as weekly or daily at a certain time. If you want to set up a group of Office Hours that are less structured, use the **Scheduling Wizard** (*discussed next*).

Add Office Hours

1. Select **Office Hours** on your Starfish *Home* page.

The **Add Office Hour** form displays.

The screenshot shows the 'Add Office Hours' form. At the top right, there are 'Never Mind' and 'Submit' buttons. The form contains the following fields and options:

- Title:** A text input field containing 'Office Hours'.
- What day(s)?:** A dropdown menu set to 'Weekly', followed by 'Repeats every' and a dropdown set to '1', and 'week(s)'. Below this are radio buttons for 'Mon', 'Tue', 'Wed', 'Thu', 'Fri', 'Sat', and 'Sun'.
- What time?:** Two text input fields labeled 'Enter Start Time' and 'Enter End Time' with 'to' between them.
- Where?:** A note: 'Note: You may select more than one location to give students a choice.' Below are two checkboxes: 'Chrysler Hall, Room 301' (with subtext 'Knock once and enter') and 'Wimba' (with subtext 'access via your Blackboard course').
- Office hours Type:** A dropdown menu set to 'Scheduled And Walk-ins' with a question mark icon. Below it is the text 'Take either scheduled appointments or walk-ins'.
- How long?:** Two dropdown menus. The first is labeled 'minimum appointment length' and the second is labeled 'maximum appointment length'. Both are set to '15 minutes'.
- Appointment Types:** A section titled 'Select the types of meetings you will have in these office hours.' with five checkboxes: 'Advising', 'Teaching', 'Weekly Teaching Check-in' (with a refresh icon), 'Event', and 'Weekly Advising' (with a refresh icon).

At the bottom, there are two tabs: 'Instructions' and 'Start/End Date'. Below the tabs is a text area with the text 'These will be sent to anyone who makes an appointment.' At the bottom right, there are 'Never Mind' and 'Submit' buttons. A legend at the bottom left indicates that red asterisks denote required fields.

2. The **Title** for this block of time displays *Office Hours* by default. However, you can change the **Title** to help you or others managing your calendar identify different types of office hours.

3. Select **What day(s)?** and indicate any recurrence (e.g. **Repeats every 1**

week).

4. Use the **What time?** fields to enter the start and end time for the office hours.

Once this office hour block is saved, you will **not** be able to edit the days on which the office hours occur or the type of frequency (e.g. weekly) but you will be able to edit how often the block recurs (e.g. 1 week vs. 2 weeks) and the specific times available.

5. Select **Where?** meetings will be held using the checkbox(es) next to your location(s). If you choose more than one location, the student will be able to choose his/her preferred location for the meeting. To add additional locations options, go to the **Appointment Preferences** page of your *Profile*.
6. Select the **Office Hour Type** dropdown for meetings you will take during this block.
 - a. Select **Scheduled and Walk-ins** if you will be using the kiosk/waiting room features, and you plan to take walk-ins between appointments.
 - b. Select **Scheduled Appointments Only** if you will not take any walk-ins.
 - c. Select **Walk-ins Only** to show the time as available to students but disallow anyone from making advance appointments.
7. Select **How long?** meetings can be by selecting a minimum and maximum duration. If the minimum and maximum are identical, the student will not be given a choice of duration. *Note that institution settings for specific appointment reasons, may override your settings.*
8. If your role has permissions to add more than one Appointment Type, you will see checkboxes that allow you to select which types apply to this block of time. Appointment Types dictate:

- a. which students can schedule during this time (based on the role that connects you and the student)
- b. the appointment reasons shown to students
- c. which **SpeedNotes** will display
- d. which roles can view the appointment and its notes

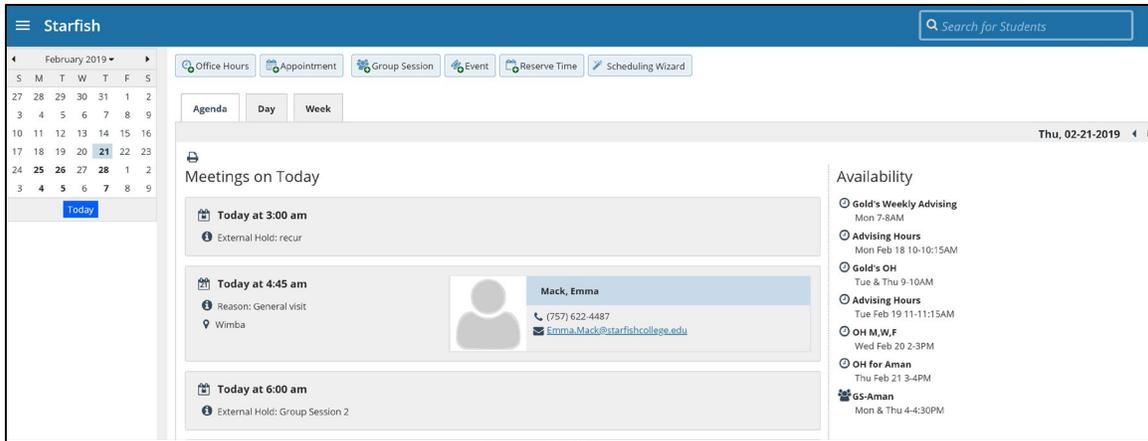

An appointment type with the recurrence icon  indicates an **appointment** that recurs on the same date and time for the duration of the term.

9. At the bottom of the form, use the **Instructions** box to enter instructions to students scheduling with you during this block of time. Instructions are required for blocks that allow Walk-ins.
10. Optionally, select the **Start/End Date** tab to set a time frame for a repeating office hour block. For the End Date, you may choose: Never, End of Term, on a specified date, or after a specified number of occurrences.
11. Select **Submit** to save your Office Hour block.

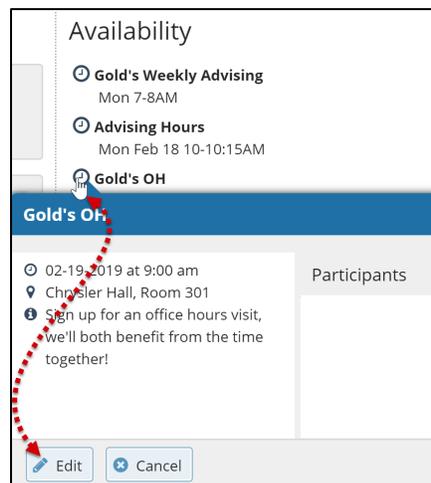

Manage Office Hours

Edit or cancel a series of office hours from the **Agenda** tab in the **Appointments** section of Starfish.

Edit office hours

1. Hover over the office hours menu icon next to an office hour title to open the **Office Hours** pop up card.

2. Select **Edit** to modify: the frequency of the office hour block's recurrence, the time of day, locations, office hour types, minimum and maximum duration of appointments, appointment types, instructions, or a start/end date of the series.
3. Select **Submit** on the **Edit Office Hours** form to save your changes.

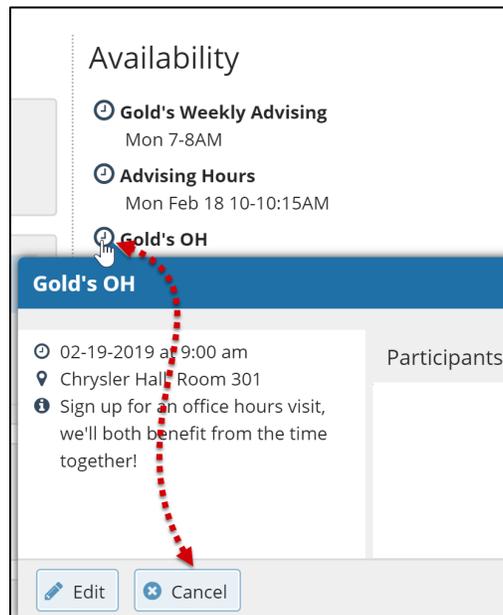

You cannot edit the days of the week or the nature of the recurrence (e.g. weekly).

Selecting **Edit** will modify all occurrences of this set of office hours. To reduce availability within an office hour block on a specific day, **add reserved time** (See

Add Reserved Time for more info) to cover the part of the office hours you want to remove from availability.

Delete Office Hours

1. Hover over the office hours menu icon next to an office hour title to open the **Office Hours** pop up card.

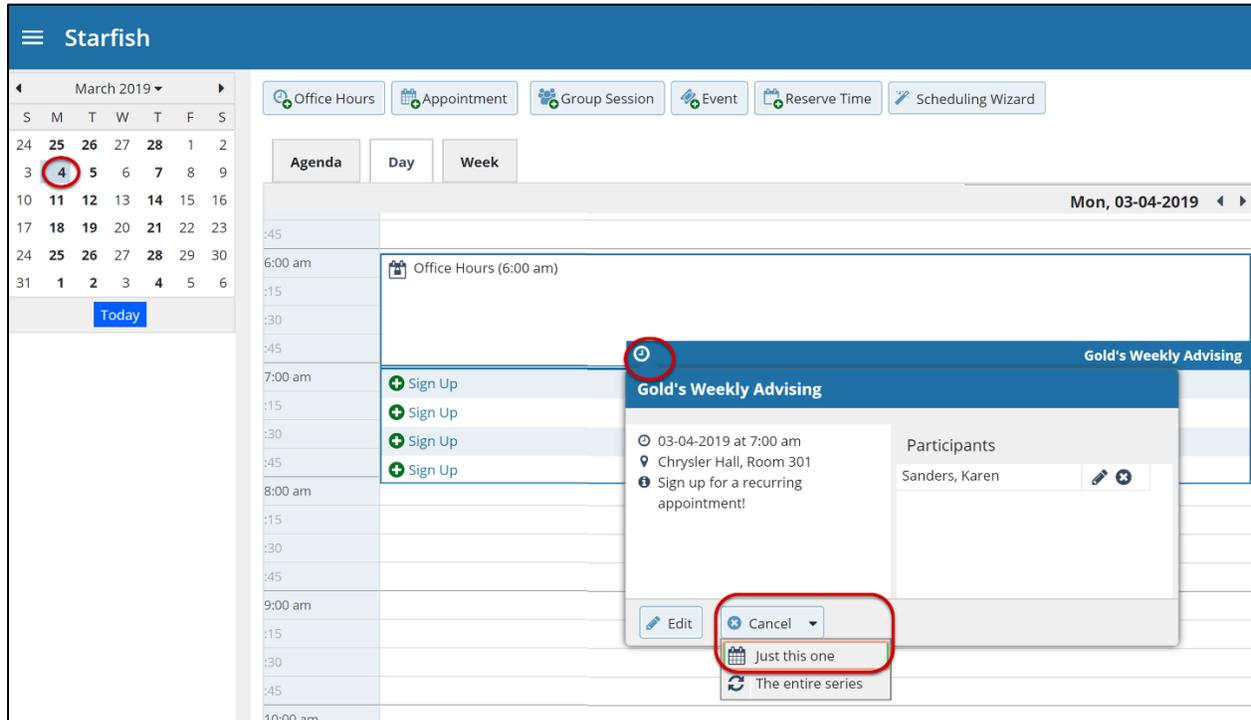

2. Select **Cancel** to open the *Delete Office Hours* window.

3. Select **Submit** on the *Delete Office Hours* window to remove the office hour block.

Cancel a single occurrence of an office hour block

Cancel an individual occurrence of an office hour series from the **Day** tab of your **Appointments** section of Starfish.

1. Use the mini calendar on the left side of the page to select the desired day.

2. Hover over the icon associated with the block of hours for the selected day.
3. Select **Cancel** from the pop-up card that is displayed then select **Just this one** to cancel office hours for the selected day. You will be prompted to confirm the cancellation and can add a note that will be included in an email to those whose appointments are canceled.

Starfish recommends including an explanation and provide guidance on how to reschedule or connect to other available resources.

Delete Office Hours Never Mind Submit

Do you want to delete this office hours occurrence?

This will cancel 1 appointment. You can send a message to people with appointments, explaining why you canceled this Office Hours Block:

I have a family emergency and need to head out early today so I will not be able to keep our meeting. Please go to Starfish and pick an available timeslot next week.

* Required fields Never Mind Submit

4. Select **Submit** to cancel the Office Hour occurrence.

Scheduling Wizard (ideal for less structured office hours)

The **Add Office Hours** option is geared toward setting up a recurring block of time on a regular pattern such as weekly or daily at a certain time. If you want to set up a group of Office Hours that are less structured, use the **Scheduling Wizard**.

This feature is particularly useful for advising rush weeks, midterm course meetings, or other scenarios where you need to hold several different office hour sessions for students within a week or two.

1. Select **Scheduling Wizard** from your *Home* page.
2. Complete the first page of the **Scheduling Wizard** by entering the **Title**, location **Where**, duration **How long**, Appointment Types and **Instructions** that should be applied to *all* the office hour blocks that are to be created. (You will find additional descriptions of these fields in the

Add Office Hours section).

Any office hour block that does not share these details must be created separately.

Scheduling Wizard

The Scheduling Wizard makes it easy for advisors and instructors to schedule multiple office hours blocks for multiple days in a single week. This is useful for setting up your calendar for advising rush periods and other times when you book several blocks of time for seeing students.

To get started, specify the title, location, and other settings for the office hours blocks you are setting up.

Continue to step 2 in the wizard to setup the days and times for the week's office hours.

Enter the information that should be applied to the office hours blocks. Note that all blocks created in step 2 of this wizard will use the information you specify here.

*** Title**

*** Where?** Note: You may select more than one location to give students a choice.

+ Add Another Block	+ Add Another Block	+ Add Another Block	+ Add Another Block	+ Add Another Block	+ Add Another Block	+ Add Another Block	+ Add Another Block	+ Add Another Block	+ Add Another Block

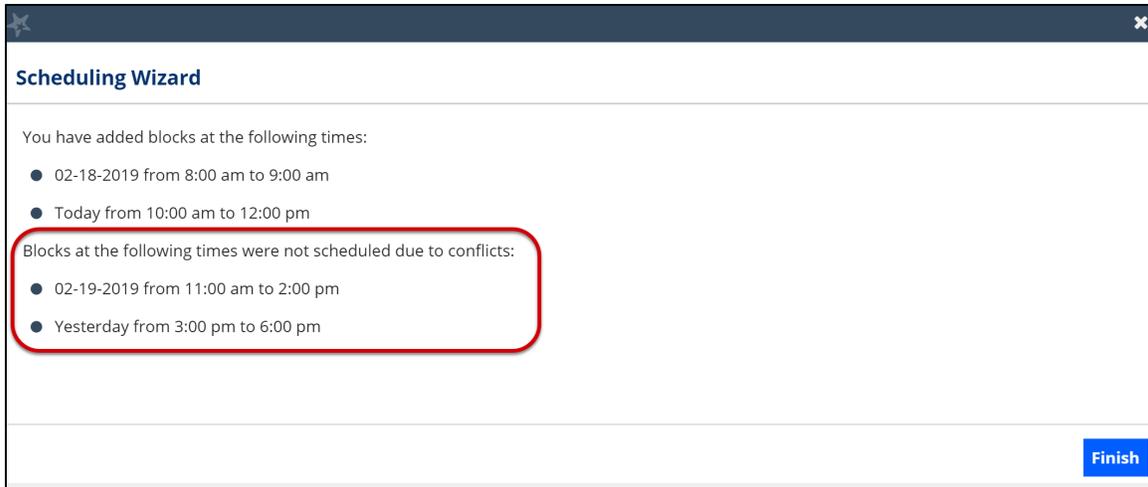

Never Mind < Back Finish

4. The date range is displayed in the top right corner of the grid. Use the < > controls to the right of the date range to navigate to the week in which you want to begin scheduling the office hours.
5. In the selected week, enter the start and end times for each block in the appropriate day columns. You can schedule multiple office hour blocks on any day within the week.

If you need to schedule more than three blocks on any day, select the **Add Another Block** link in the column for that day.

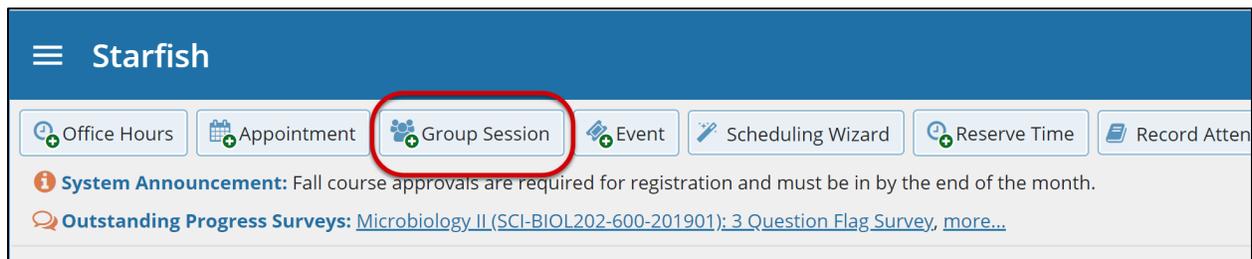

4. To add blocks to another week, use the < > controls to move to the next week. **Don't select finish until you've entered all the blocks!**
5. Select **Finish** to create all the office hour blocks. A summary window displays.

- The summary will include a list of hours that were added successfully. Any block that could not be created due to will also display. Make a note of failed blocks before selecting **Finish** to exit the wizard as necessary.

Group Sessions

Group sessions allow you to create blocks of time in which a specified number of students can meet with you as a group. The steps are like adding office hours but include selections that are specific to group sessions.

Add a Group Session

- Select **Add Group Session** from the *Home* page. The **Add Group Session** form displays.

Add Group Session [Never Mind] [Submit]

* **Title** [Group Session]

* **When?** [Once] [v] **Date:** [02-22-2019] [calendar icon]

* **What time?** [Enter Start Time] to [Enter End Time]

* **Where?**
 Chrysler Hall, Room 301
Knock once and enter
 Wimba
access via your Blackboard course

* **Reason** [Select a reason...] [v]

* **How many students?** []

Enter the maximum number of students that can sign up for the session.

Allow students to see other students who have signed up

Support supplemental instruction
Restrict the session to students in the same section or course. Note that the selected reason controls whether restriction is limited to the same course or section.

[Instructions] [Start/End Date]

These will be sent to anyone who makes an appointment.
[]

* Required fields [Never Mind] [Submit]

2. Enter a **Title** for this group session. Students will see this title when they view your calendar.
3. Select **When?** the group session will occur and select the recurrence.
4. Use the **What time?** fields to enter the start and end time for the group session.

Once the group session is saved, you will not be able to edit the days on which the session occurs or the type of frequency (e.g. weekly) but you will be able to edit how often the block recurs (e.g. 1 week vs. 2 weeks) and the specific times.

5. Select **Where?** meetings will be held. To add additional locations options, go to the **Appointments Preference** page of your *Profile*. Only one location can be selected for a group session.

6. Select the **Reason** associated with this group session. Reasons listed are those associated with the *Appointment Types* your role has permission to add. If you don't find the reason you expected, contact your Starfish administrator.

 7. Enter **How many students** (maximum) can sign up for the session.

 8. If students can see the names of other students who have signed up for the session, select the **Allow students to see other students who have signed up** checkbox.

 9. If this group session should be limited to students in the same course/course section, select the **Support supplemental instruction** checkbox. When this option is selected, participants will be limited to the course/course section selected by the first student who signs up.
-  The supplemental instruction option is most often used with Tutoring Service Calendars. The restriction may be either course or course section based (e.g. restricted to Biology 101 students, or to Biology 101, section 02 students). This depends on options your Starfish administrator set for the *Appointment Type* associated with your group session reason. Contact your Starfish Admin to learn more about this option.
10. Use the **Instructions** box for information that can be shared with students who sign up.

 11. Select **Start/End Date** to designate a time frame for the group session if it recurs (as set in step 3 above).

 12. Select **Submit** save your Group Session.

Existing group sessions will display within the **Appointments** section of Starfish.

Edit a Group Session

1. Hover over the **Group Session** icon to open the group session pop-up card.
2. Select **Edit** on the pop-up card. You can edit the frequency of recurrence, time of day, location, reason, number of participants, visibility of students, instructions and the series start/end date.

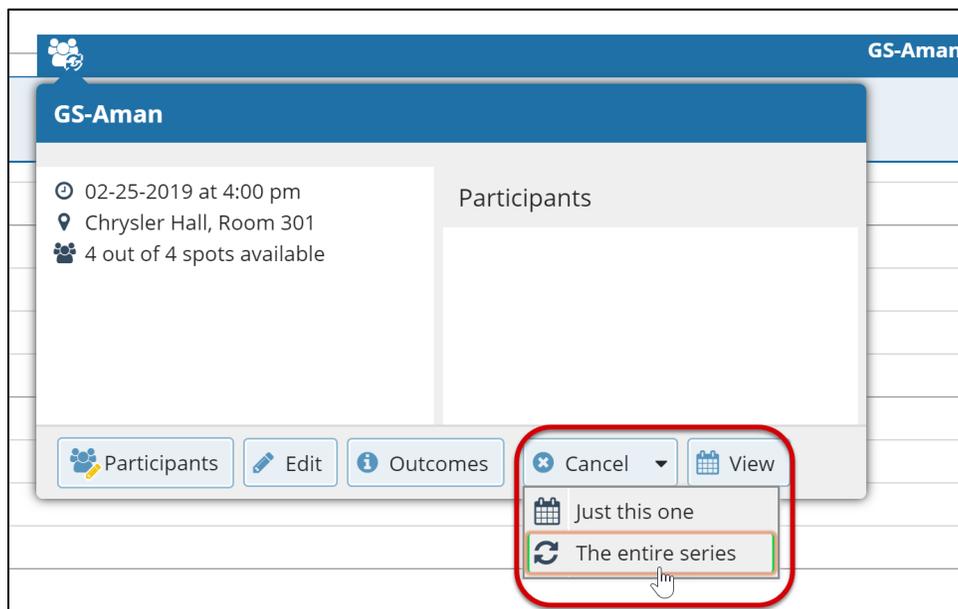

You **cannot** edit the days or the frequency of the recurrence (e.g. weekly). Some changes are prevented after students have signed up.

3. Select **Submit** to save your changes.

Cancel a Group Session

1. Hover over the **Group Session** icon to open the **Group Session** pop-up card.
2. Select **Cancel**. If you select **Just this one**, this will cancel the session for the selected day. If you select **The entire series**, this will cancel all occurrences of the group session.

You will be prompted to confirm the cancellation and can add a note that will be included in an email to those whose session is canceled.

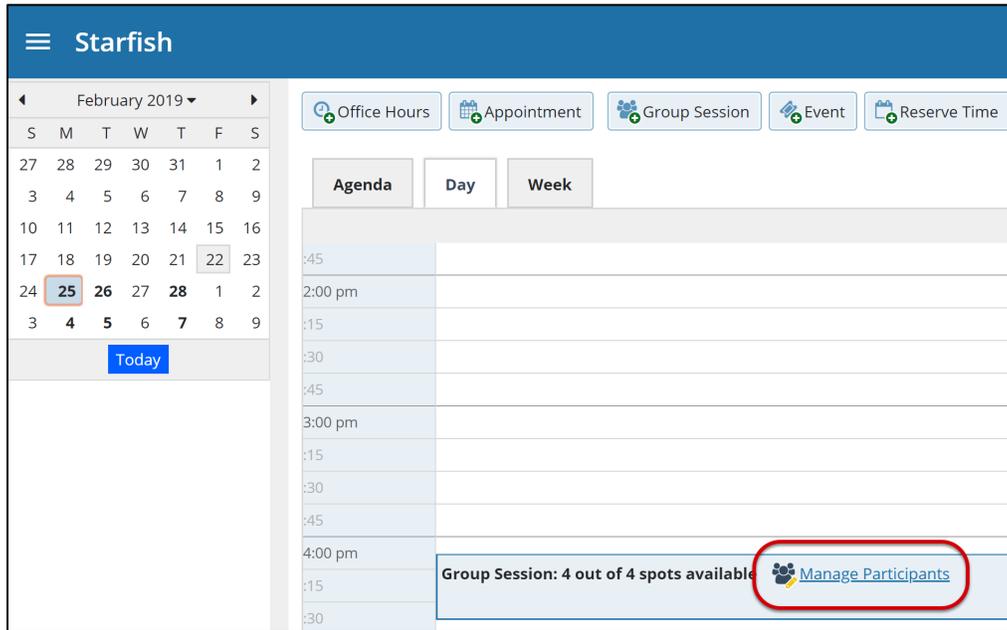

3. Select **Submit** to cancel the group session series.

Manage Group Session Participants

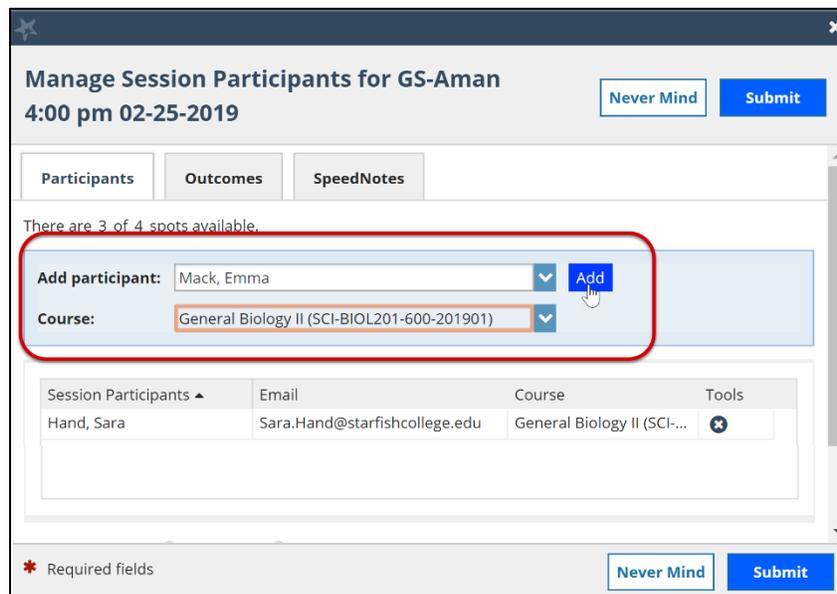

You can add or remove participants in an individual group session using the **Manage Participants** link on the **Day** view of the group session.

Add Participants

1. Select **Manage Participants**.

2. Search for a student by typing the name into the **Add participant** field, then select **Add**. Repeat this process for each student you want to add.

Remove Participants

1. To remove a participant, select the delete icon associated with the student within the **Tools** column.

Session Participants ▲	Email	Course	Tools
Hand, Sara	Sara.Hand@starfishcollege.edu	General Biology II (SCI-...	

2. When you are finished select **Submit**.

Session Sharing

You can mark group sessions to be **Shared** with people that have a relationship with the student. Starfish will display the first five people that have a relationship with the student by default, select **More** to display the entire list.

Session Sharing Shared Private

 **Permissions:** People with the following roles may be able to see this group session if they have a relationship with the student(s):

- Program Advisor
- General Advisor
- Academic Advisor
- Career Advisor
- Financial Aid Advisor

[More...](#)

Alternately, you can mark sessions to be **Private** prohibiting others from viewing this session except for you and your calendar manager(s).

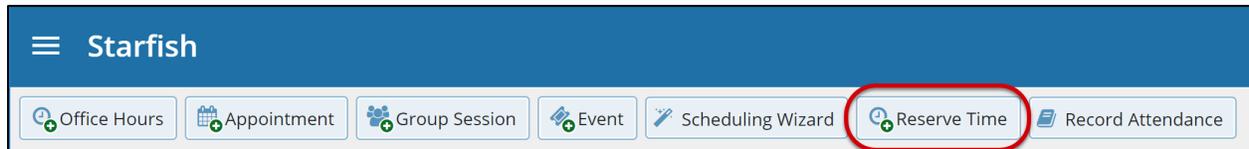

Session Sharing Shared Private

 **Permissions:** This group session is private and can be viewed only by you and your calendar managers.

Reserve time on your calendar

Use the **Reserve Time** option to show time on your calendar as unavailable for appointments during that time.

1. Select **Reserve Time** on your *Home* page.

2. Fill out the **Reserve Time** form to include a description of the reserved block, the date and time of occurrence. If the block recurs each week, use the **Repeat Weekly Until** checkbox to indicate a weekly recurrence, and select the end date for the block using the date picker.

The image shows a 'Reserve Time' form window. The title is 'Reserve Time'. Below the title is a brief instruction: 'Select the start and end time to block off time in your calendar as being unavailable for appointments.' The form contains the following fields and controls:

- * Calendar:** Yolanda Gold
- * Description:** Meeting
- * When:** 02-22-2019 (with a calendar icon) Start Time to End Time
- Repeat Weekly:**
- Until:** (with a date picker icon)

At the bottom of the form, there is a legend: *** Required fields**. To the right of the legend are two buttons: 'Never Mind' and 'Submit'.

3. When you are finished, select **Submit**.

Event

The **Event** feature is a way to document attendees *after* an event occurred. The **Event** feature cannot be set up for future events, and it is not a way for students to register. It is merely a way to document attendees within Starfish to keep for records, track trends, or send targeted communication. This feature is standard for new clients but can be added for existing clients by contacting Starfish Support or your Starfish Consultant.

1. Select **Event** from your *Home* page. The Create Event form displays the *Details* tab.

The image shows the 'Create Event' form in the 'Details' tab. The form has a dark blue header with the 'Create Event' title and a close button. Below the header are four tabs: 'Details' (active), 'Attendees', 'Outcomes', and 'SpeedNotes'. The main content area contains the following fields:

- Title:** A text input field with a placeholder: "Enter a title for the event like 'New Student Orientation'".
- Date:** A date picker field with a calendar icon.
- Time:** Two time input fields labeled 'Start Time' and 'End Time' separated by 'to'.
- Location:** A dropdown menu with a downward arrow.
- Reason:** A dropdown menu with a downward arrow.

At the bottom left, there is a legend: '* Required fields'. At the bottom right, there are two buttons: 'Never Mind' and 'Next >'.

2. Fill out the **Event** form to include a pertinent information regarding the event.

Keep in mind, only events in the past can be added, the calendar will not allow you to pick a date in the future.

3. Select **Next**. The *Attendees* tab displays.

Create Event Details Attendees Outcomes SpeedNotes

* Student Identifier Username
 Student ID
 Integration ID
 Card ID

* Attendees

Enter one or more Student Identifiers. Student Identifier should be separated by commas or new lines.

* Required fields

Never Mind < Back Next >

4. Select the appropriate **Student Identifier** from the available options.
 - If you received a list from an external source, verify the student identifier used to create the list.
 - If you created your list by downloading a list of students from your **My Students** tab within the *Students* area, use either the Username or Student ID, both of which are included as column in the download .csv file.
 - If you created your list by downloading a list of students from your **Tracking** tab within the *Students* area, use the Student ID which is included in the .csv download in the column labeled *studentExtId*.
5. In the **Attendees** text box, either type or copy and paste a list of attendees (based on the student identifier you selected) into the text box.
6. Select **Next**. The *Outcomes* tab displays.

The screenshot shows a web application window titled 'Create Event'. At the top, there are four tabs: 'Details', 'Attendees', 'Outcomes', and 'SpeedNotes'. The 'Outcomes' tab is currently selected. Below the tabs, the heading 'Outcome Comments' is displayed above a large, empty text input area. A note below the input area reads, 'The Outcome will be noted for all participants.' At the bottom of the form, there is a legend for '* Required fields' and three buttons: 'Never Mind', '< Back', and 'Next >'.

7. In the **Outcome Comments** free text field, enter any applicable comments. The comments you've entered will be available on the **Student Folder Meetings** tab of each attendee entered in the *Attendees* tab.

8. Select **Next**. The *SpeedNotes* tab displays.

The screenshot shows the 'Create Event' form with the 'SpeedNotes' tab selected. The heading reads, 'Check off the topics discussed and activities completed in this meeting.' Below this, there are four checkboxes: 'Academic Plan Review' (checked), 'Interview Skills' (unchecked), 'Career Exploration' (unchecked), and 'Never Mind' (unchecked). At the bottom, there is a legend for '* Required fields' and three buttons: 'Never Mind', '< Back', and 'Finish'.

9. Select the appropriate checkbox(es) pertinent to the event.

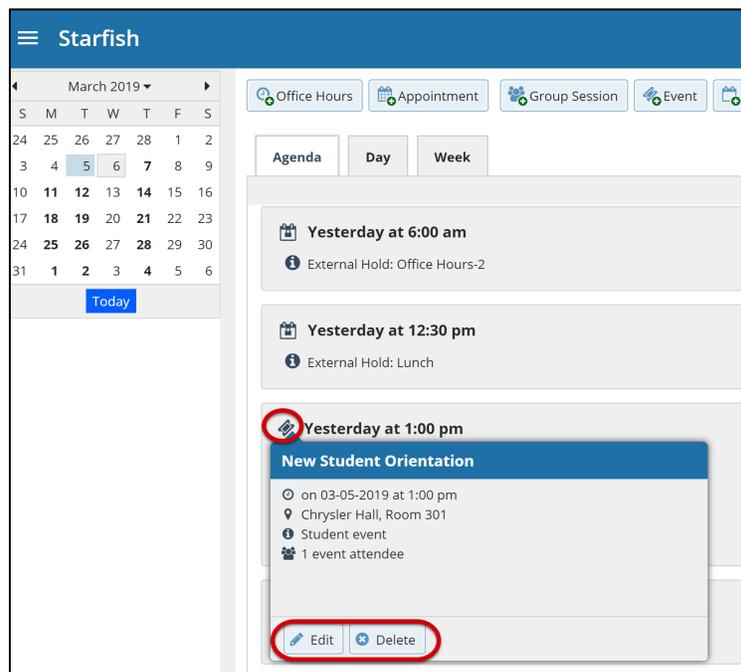

10. Select **Finish**. A confirmation window displays.

The screenshot shows a small confirmation dialog box titled 'Event Saved'. The text inside reads, 'Event was successfully saved.' followed by '1 attendee was successfully saved.' At the bottom of the dialog, there is a single blue button labeled 'OK'.

 In order to use the **Event** feature, your Starfish Administrator *must* associate your *Appointment Type* with the permission to add events.

Manage Saved Events

Saved events will be available to view or edit from your **Agenda** on the *Appointments* page. Any **Outcomes** or **SpeedNotes** for the event will display on the student folder for each attendee that was successfully updated with the event.

Create and Manage Appointments

Students may only schedule appointments with you during times you have designated as available, either through your office hours or group sessions.

You and your designated calendar manager(s) can add appointments wherever you choose with a few exceptions:

- **You cannot overlap a reserved time:** If you use the **Reserve Time** feature to block time on your calendar, you will not be able to add an

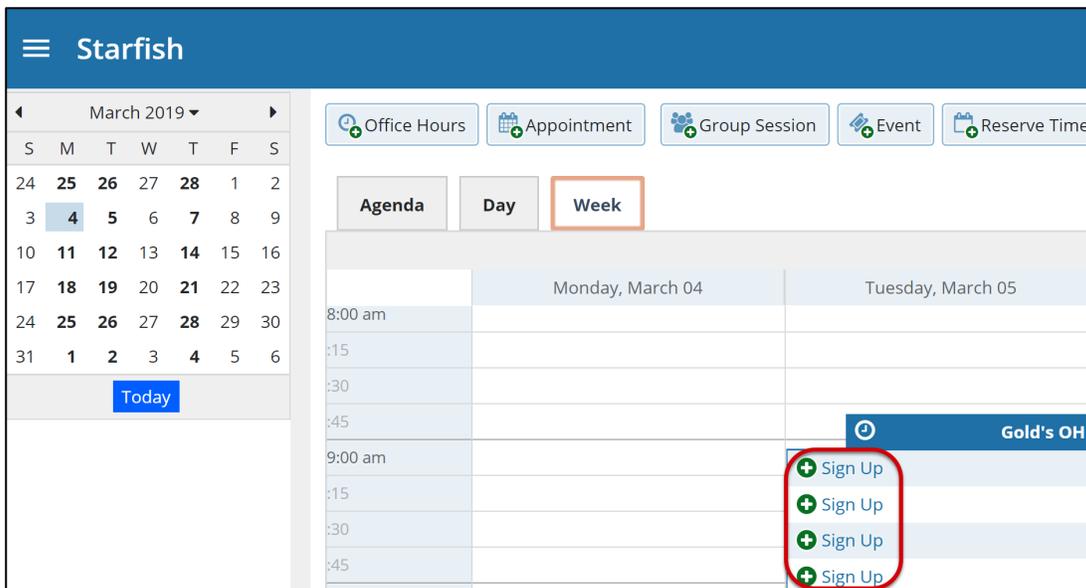

appointment in the time occupied by the reserved time without first removing the reserved time from your calendar.

- **You cannot overlap a group session:** you cannot add an individual appointment that overlaps with a group session previously added to on your calendar.
- **You cannot overlap an external hold:** If your Starfish calendar is integrated with an external calendar via Exchange or Google integration, you will find External Holds on your calendar. These represent items that exist on your other calendar (Outlook or Google). You will not be able to add appointments that conflict with external holds on your Starfish calendar.

Add Appointments

1. Initiate a new appointment using one of two ways:

- Select **Add Appointment** from your *Home* page.
- Select the **Sign Up** icon  for an existing office hour slot using the **Day** or **Week** view of your calendar on the *Appointments* page.

Using either method, the **Add Appointment** form displays.

2. In the **People in** field, select the appropriate **Term** for the student.

3. In the **Student** dropdown, enter the student name. Starfish will find matching students with whom you have a relationship. Select the appropriate student from the list.

4. If you start the appointment from an existing office hour block, the *Appointment Types* setting in that block may further limit the students available in your list. Alternately, if you used the **Add Appointment** button rather than selecting an existing time slot, specify **When** the meeting will take place (date, start time, end time).

5. Select the location in the **When** drop down list.

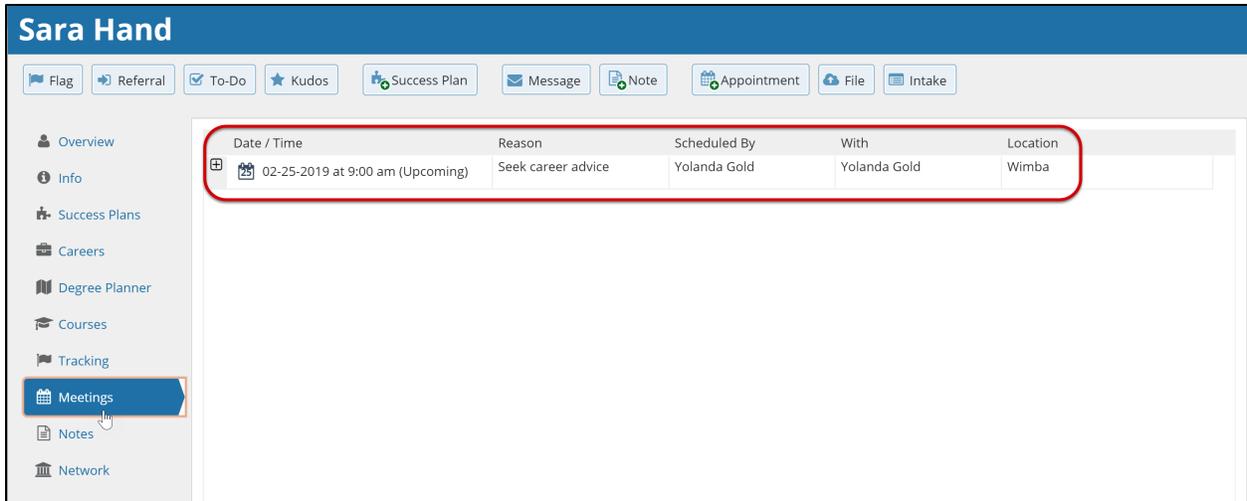

6. Select a **Reason** for the meeting. The reasons available are based on the student you selected and the *Appointment Types* that you have access to in your role/ relationship with that student.

Each reason is tied to an appointment type. Each appointment type defines which roles may view or modify an appointment of this type, and the available **SpeedNotes**. Once you choose a reason, information about which other roles have permission to see the appointment will be shown in the section labeled **Permissions**.

7. If you selected a timeslot from a set of existing office hours, the reasons will be further limited to those associated with the *Appointment Types* settings for the office hours.
8. If relevant to the meeting and permitted by your role, select a **Course** from the list presented.
9. Select the appropriate **Sharing** settings for this appointment.
10. Enter a **Detailed Description** which will be emailed to you and the student.
11. Select **Submit**.

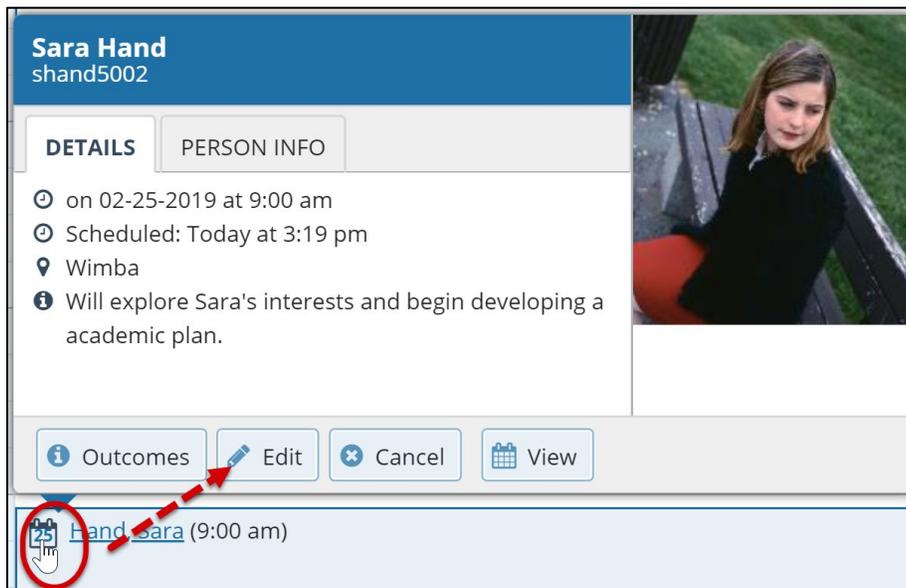

The appointment displays on your *Calendar*, *Home* page, and *Recent Changes* channel. Additionally, the appointment, along with the detailed description displays on the **Meetings** tab of the student folder for anyone that has permission to view the appointment.

Both you and the student will receive an email with an iCal attachment for any **future** appointments. Appointments created to document prior meetings will not send an email. If you do not receive an email, check your *Email Notification* settings.

Manage Appointments

From the **Appointments** pop up card you can edit or cancel an upcoming appointment and add or edit outcome details. If configured on your Starfish system, you may be able to use **SpeedNotes** to document common outcomes.

Scheduling

1. Hover over the **Appointment** icon .
2. Select **Edit** to open the **Scheduling** tab. From here, you can edit appointment scheduling details including:
 - **When** and **Where** the appointment will occur.
 - The **Reason** associated with the appointment.

The **Reason** selection may impact who else can view the meeting, and which **SpeedNotes** will be available for documenting outcomes.

- The **Course** associated with the appointment. (optional)
- The **Sharing** setting.
- The **Detailed Description** that is shared with the student and documented on the *Meetings* tab of the student folder.

- Program Advisor
- General Advisor
- Academic Advisor
- Career Advisor

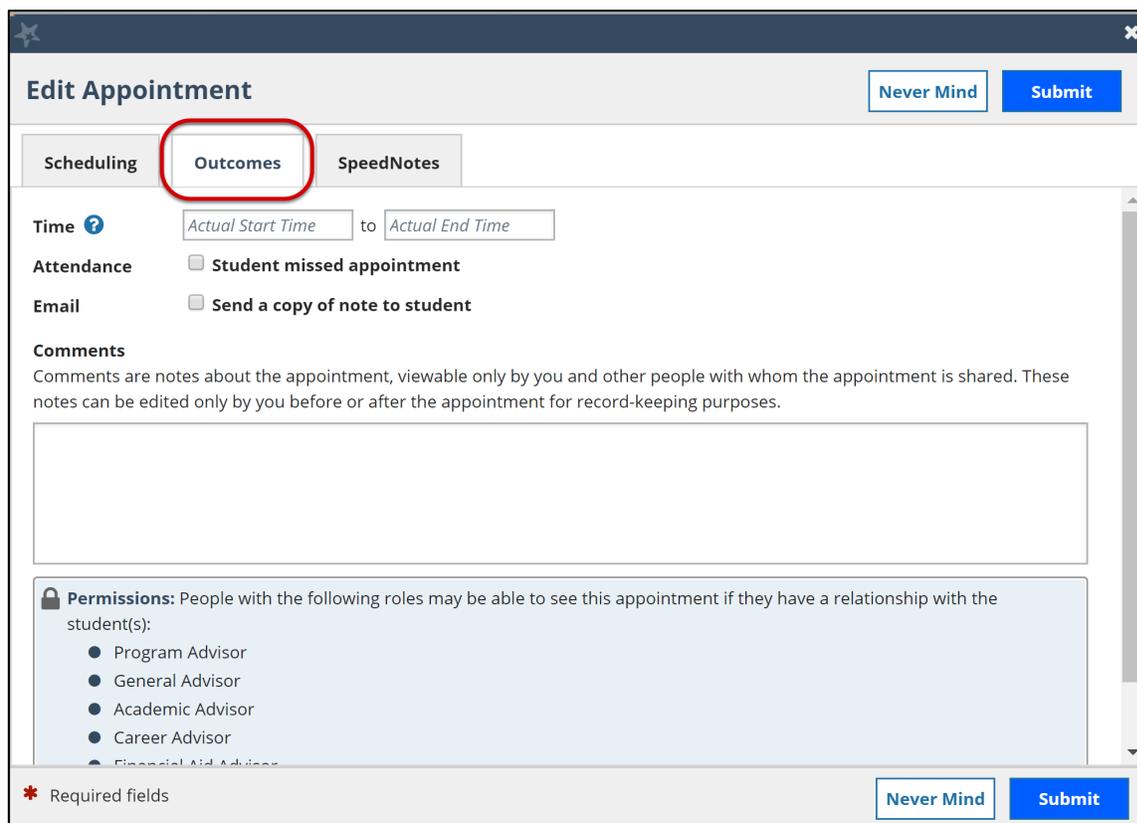

* Required fields Never Mind Submit

3. When finished, select **Submit**.

An updated iCalendar (iCal) attachment will be emailed to the student. You will also receive the updated iCal if your **Email Notifications** preferences are set to notify when changes are made to an existing appointment (recommended).

Outcomes

1. Hover over the **Appointment** icon .
2. Select **Outcomes**.

The screenshot shows the 'Edit Appointment' interface. At the top, there are 'Never Mind' and 'Submit' buttons. Below the title bar, there are three tabs: 'Scheduling', 'Outcomes' (which is selected and circled in red), and 'SpeedNotes'. The 'Outcomes' tab contains the following fields:

- Time**: Two input fields labeled 'Actual Start Time' and 'Actual End Time' with a 'to' separator.
- Attendance**: A checkbox labeled 'Student missed appointment'.
- Email**: A checkbox labeled 'Send a copy of note to student'.
- Comments**: A text area with a description: 'Comments are notes about the appointment, viewable only by you and other people with whom the appointment is shared. These notes can be edited only by you before or after the appointment for record-keeping purposes.'
- Permissions**: A section with a lock icon and the text 'Permissions: People with the following roles may be able to see this appointment if they have a relationship with the student(s):'. Below this are several roles with radio buttons: Program Advisor, General Advisor, Academic Advisor, Career Advisor, and Financial Aid Advisor.

At the bottom of the form, there is a '* Required fields' indicator and another set of 'Never Mind' and 'Submit' buttons.

3. In the **Time** fields enter the meeting's actual start and end time.
4. Select the **Attendance** checkbox if the student missed the appointment. Depending on your institution's settings, this may trigger an email to the student.

5. Select the **Email** checkbox if you would like to send a copy of the **Outcome** note to the student.
6. Enter your notes into the **Comments** box.
7. When finished, select **Submit**.

The **Outcome** notes will be available in the student folder on the **Meetings** tab for this appointment.

SpeedNotes

SpeedNotes are preconfigured appointment activities that can be selected to quickly capture recurring meeting outcomes. If **SpeedNotes** exist for any appointment types in your Starfish system, the **SpeedNotes** tab is available whenever the **Edit Appointment** form is open.

If the selected appointment type has no **SpeedNotes** associated with it, the tab contents will be blank.

The **Reason** selected for your appointment on the **Scheduling** tab is connected to an appointment type, and that appointment type determines which **SpeedNotes** are displayed. If you don't see the **SpeedNotes** you were expecting, you may need to select a different **Reason** or check with your Starfish Administrator.

1. Hover over the **Appointment** icon associated with an appointment.
2. Select **Outcomes** or **Edit** from the *Appointment* pop up card.
3. Select **SpeedNotes**.
4. Select the items that are relevant to your meeting.

The screenshot shows a web application window titled "Edit Appointment". At the top right, there are two buttons: "Never Mind" and "Submit". Below the title bar, there are three tabs: "Scheduling", "Outcomes", and "SpeedNotes". The "SpeedNotes" tab is highlighted with a red circle. Below the tabs, there is a section titled "Check off the topics discussed and activities completed in this meeting." with a list of checkboxes. The first checkbox is "Academic Plan Review". Under the heading "Career", there are two columns of checkboxes: "Career Change", "Career Compatibility", "Career Dissatisfaction", "Career Exploration", "Career Exploration/MBTI Referral", "Discussion of Career Goals", "Internship Assistance", "Interview Skills", "Job Search Assistance", "Referral to Career Counseling", and "Resume Review". At the bottom left, there is a red asterisk icon followed by the text "Required fields". At the bottom right, there are two buttons: "Never Mind" and "Submit".

5. When finished, select **Submit**.

Cancel Appointments

1. Hover over the **Appointment** menu icon .
2. Select **Cancel**.
3. The **Cancel Appointment** form is displayed. Enter a note explaining the reason for the cancellation.

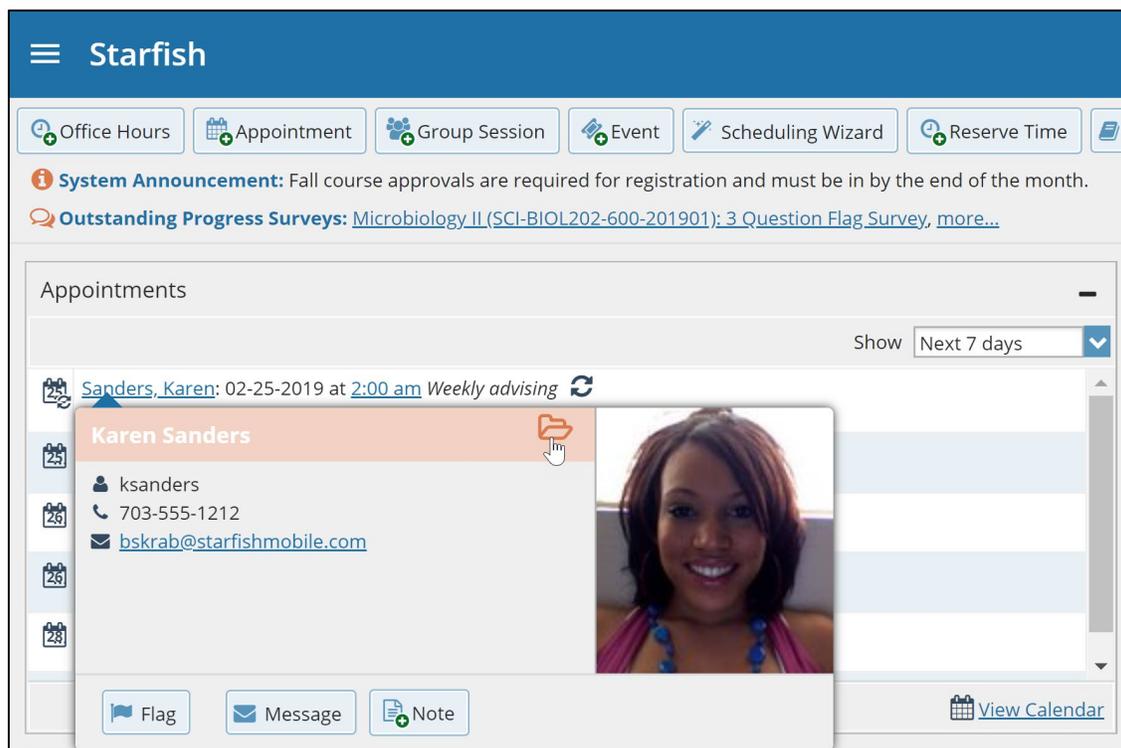

The screenshot shows a web application window titled "Cancel Appointment". The main text asks, "Are you sure you want to cancel your 9:00 AM appointment with Hand, Sara?" Below this, it says, "You can send this person a message explaining why you have to cancel. This message will be saved with the appointment notes:". There is a large, empty text input field with a light blue background and a thin orange border. At the bottom left, there is a red asterisk icon followed by the text "Required fields". At the bottom right, there are two buttons: "Never Mind" and "Submit".

4. Select **Submit** to cancel the appointment.

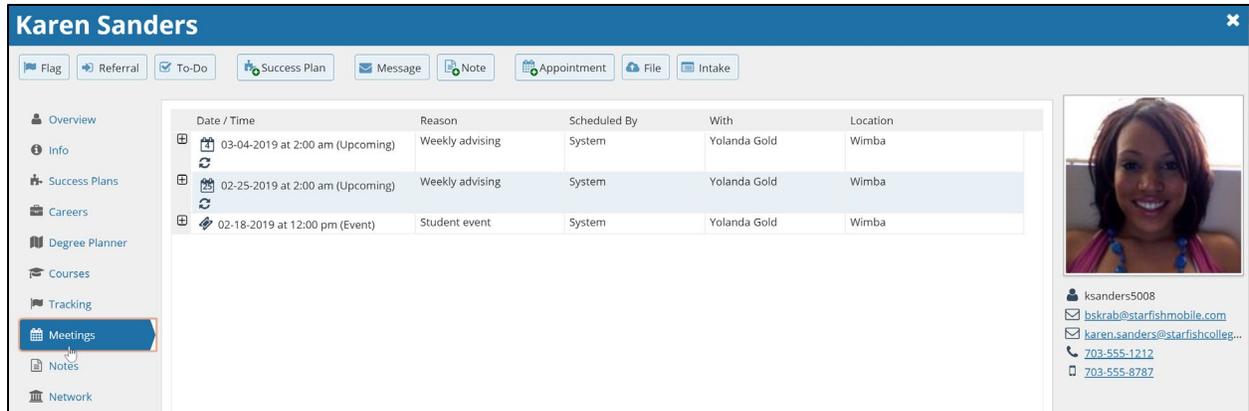

An updated iCalendar (iCal) attachment will be emailed to the student. You will also receive the updated iCal if your **Email Notifications** preferences are set to notify when changes are made to an existing appointment (recommended).

Review Appointment information and meeting outcomes

1. You can open the student folder by selecting the link associated with the student's name wherever it displays in Starfish. In this example, we will access the appointment information from the **Appointment** channel on your *Home* page.

The *Student Folder* displays.

2. Select the **Meetings** tab to review information about upcoming and past meetings for this student.

The **Meetings** tab of the student folder includes upcoming appointment information as well as meeting notes captured in Starfish. It may also include historical meeting information from external systems.

The information that is available to you on the **Meetings** tab is based on the role(s) that connect you to your students and the *Appointment Types* those roles have permission to view.

The icons to the left of each meeting in the list provide additional information or available actions related to the meeting:

- **Expand** icon : when you select the **Expand** icon you can view additional details about the meeting.
- **Appointment** icon : when you hover over the **Appointment** icon you can update the appointment.
- **Missed Appointment** icon : if the student was marked as a no show on the **Outcomes** tab, the **Missed Appointment** icon displays instead of the standard appointment icon.
- **Historical Appointment** icon : if your Starfish system was configured to allow external calendar meeting outcomes such as TutorTrac, you will see the **Historical Appointment** icon display.
- **Events** icon : when you add an Event, the **Event** icon displays in your Starfish calendar.

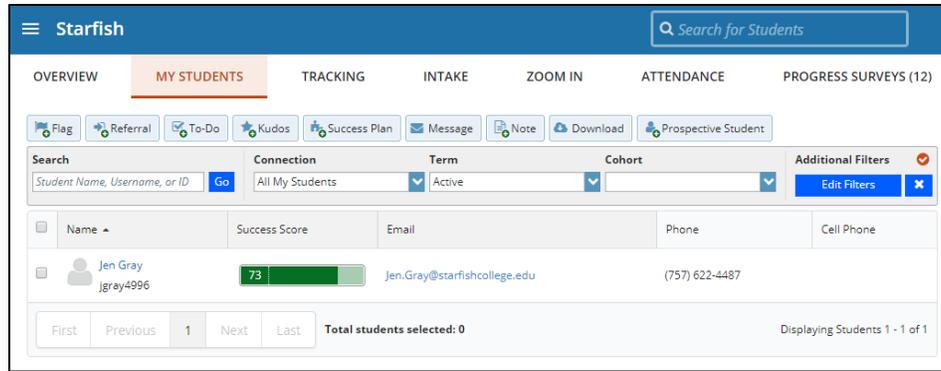

Filter student lists based on meetings

From the **My Students** tab, you can identify students that have or have not scheduled appointments.

1. Select **My Students** from the **Students** menu option, then select **Add Filters**. The *Additional Filters* form displays.

2. Select **Meetings** from the filter options and select the **Students** checkbox.
3. Select whether you want to filter to students **Who have had/scheduled meetings** or to those **Who have not had/scheduled a meeting**. Alternately, you can filter to a specific **Appointment Type/Reason** and a range of **Dates**.
4. When finished, select **Submit**.

Your student list displays students who matched your **Meetings** filter criteria.

Select the **Clear Filters**  icon to remove your filter or select **Edit Filters** to modify your filter criteria.

Canceled appointments **will not be** included in the filter results for students that have had/scheduled an appointment, but scheduled appointments where the student was marked as a no show **will be** included.

Calendar Managers

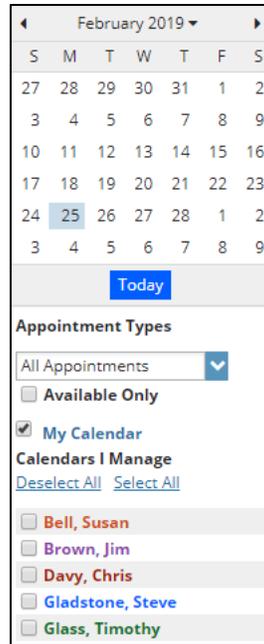

Calendar Managers can view, add, and edit appointments on your Starfish calendar. You can designate other users to be your calendar manager through **Appointment Preferences** in your profile.

Institutions can create calendar managers via SIS import or administrator upload. You must contact your Starfish administrator to remove calendar managers created via these methods.

Calendar viewing options

If you are a designated calendar manager, a list of calendars you have permission to manage display under the **Calendars I Manage** heading.

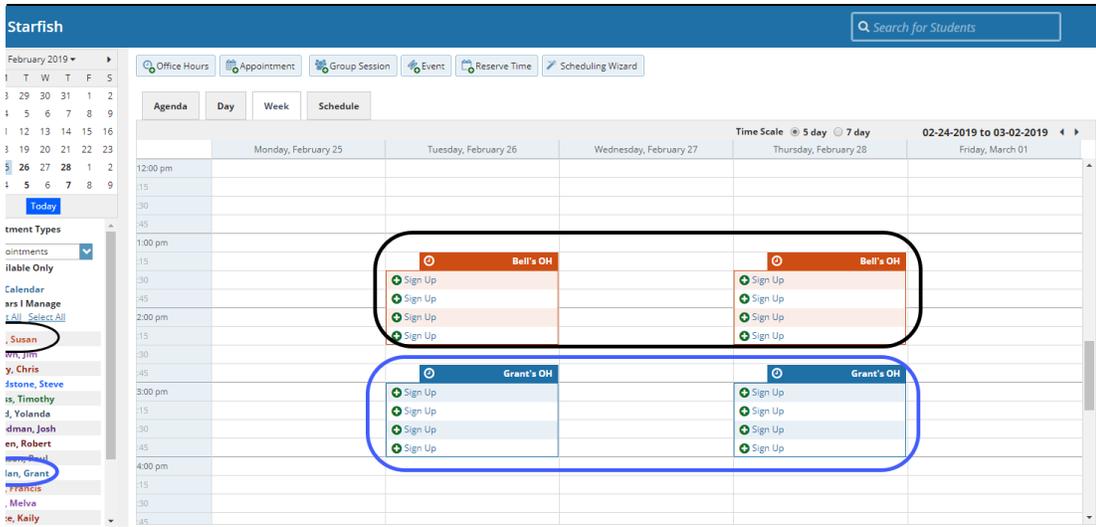

The screenshot displays a calendar for February 2019. The calendar grid shows days from 27 to 9. The 25th is highlighted. Below the calendar is a 'Today' button. Underneath is the 'Appointment Types' section, which includes a dropdown menu set to 'All Appointments', a checkbox for 'Available Only', and a checked checkbox for 'My Calendar'. Below this is the 'Calendars I Manage' section, which includes links for 'Deselect All' and 'Select All', and a list of five calendars with checkboxes: 'Bell, Susan' (red), 'Brown, Jim' (purple), 'Davy, Chris' (orange), 'Gladstone, Steve' (blue), and 'Glass, Timothy' (green).

You can filter the calendars displayed by **Appointment Type** and/or by individual users' calendars:

- Use the **Appointment Types** dropdown to filter the results by appointment type.
- Select the appropriate checkbox(es) associated with each calendar you'd like to view.

To make it easier to distinguish among calendars, each name is displayed in its own color.

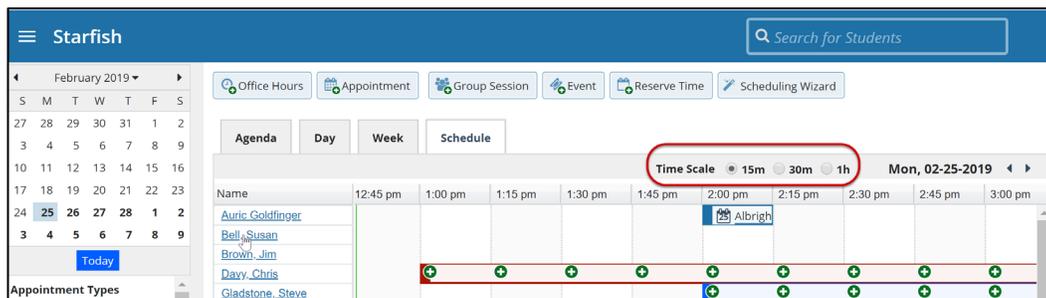

As a calendar manager, a **Schedule** tab will display along with the **Agenda**, **Day**, and **Week** tabs. If you are opening more than 3 calendars at the same time, the **Schedule** tab is recommended. If you manage many calendars the **Select all** calendars option will only be available in the schedule view.

When you select the **Schedule** tab, Starfish may display a quick reference pop up that includes these tips for using the schedule view:

From the **Schedule** view, use the time scale option at the top of the schedule view to look at the combined schedules in 15-minute, 30-minute or 1-hour increments. Select an individual's name in the schedule view to jump to view that user's calendar in the day view.

Create and Update Appointments for others

If you are a calendar manager, you will have additional calendar selections when adding an appointment to the calendar.

On the **Add Appointment** form, you will find a dropdown selector in the **Calendar** field listing those individuals for whom you have the calendar manager permission.

Select the desired staff member to add an appointment to his/her calendar. Options presented in terms of students, locations and appointment types will be based on the selected user's role(s).

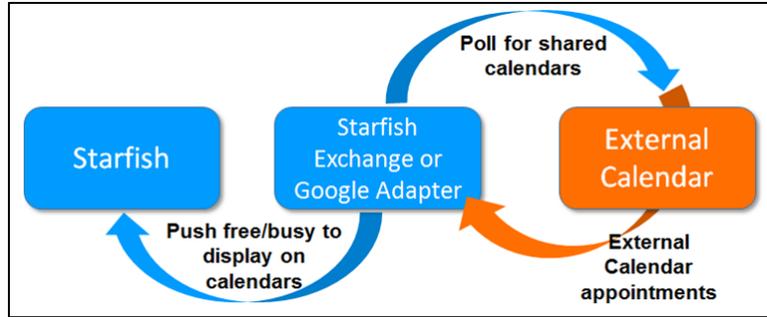

If you elect to add appointments, office hours, group sessions or reserved time from your *Appointments* page, individuals who are not checked in the **Calendars I Manage** section **will not** be listed as options in the dropdown box for **Calendar** on the **Add** forms.

Once the appointment, office hour block, group session or reserve time is created, you **cannot** modify the person whose calendar it belongs to (i.e. you cannot move it to another person's calendar by selecting another calendar).

External Calendar Integration

Integration with an external calendar allows free/busy information from your external calendar to be displayed on your Starfish calendar. This type of integration is available for Google or Exchange, and your institution must have configured one of those options with Starfish for you to take advantage of it. With Starfish's adapter installed, Starfish will poll your external calendaring system for shared calendars, and then display the free/busy information from those shared calendars on your Starfish calendar.

How Starfish Communicates with your Online Calendar

Starfish supports **Two-Way Calendar Communication** via email with most online calendars (e.g., Microsoft Outlook, Google, Entourage). When an appointment is scheduled or updated in Starfish, a calendar invitation email (with iCal attachment) is sent to the student and the calendar owner allowing users to accept or decline in their email client.

This two-way communication about **Starfish** appointments is automatically available and requires no additional integration or installation.

When the Starfish Calendar is updated

Starfish triggers an updated calendar invitation (iCal) to be sent to you when a new or updated block of time is available for student meetings.

Notifications

Both you and the student will be sent an iCal when a student appointment is scheduled, changed, or canceled. You can modify whether to receive these notifications in the **Appointment Notifications** section of your *Profile*. Starfish

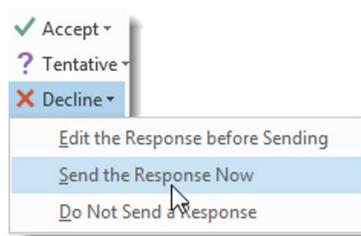

highly recommends receiving email notifications for all changes as displayed below.

Send me an email with a calendar attachment for every:

change to my appointments change to my Office Hours/Group Sessions

When an invitation is canceled or declined

When you cancel or decline a Starfish invitation from within your external calendar, the cancel/decline is sent to Starfish and is reflected on your Starfish calendar.

You cannot modify Starfish appointments times in your external calendar. Only Accept, Cancel or Decline are reflected in Starfish. You must select **Send the Response Now** when declining for Starfish to be notified of the change.

You must have a calendar that supports calendar invitations and iCal attachments, (e.g. Microsoft Outlook or Google Calendar) for this to work.

Configure your External Calendar

Google Calendar configurations

1. From your *Profile*, select **Email Notifications**.
2. Select the **Read busy times from my external Google calendar** checkbox.

Read busy times from my external Google calendar

3. Share your Outlook (or Microsoft 365) calendar with the **Starfish email address** specified in the line labeled **Important**.
4. Follow the **Click here** link for detailed instructions specific to your version of Outlook (or Microsoft 365). In general, you will share your calendar with the email address specified and give it the ability to read full details.

External calendar holds on your Starfish calendar

Items from your external calendar display as **external holds** on your Starfish calendar.

An external hold is distinguishable from a Starfish appointment on your Starfish calendar in two ways:

1. The title on the calendar does not include the hyperlink to the student folder.

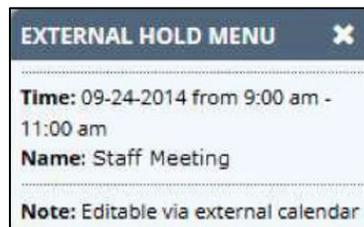

External appt

Starfish appt

2. When you hover over the **Appointment menu** icon  the **External Hold** card is displayed rather than the Starfish **Appointment** card.

External holds will be respected when a calendar owner or manager is adding an appointment or other reserved time to the calendar. Times will display as unavailable and appointments will not be able to be added over external holds.
